March Today at the Detroit Police 4th Precinct
4700 Fort St. W, Detroit, MI 48209

On the evening of Sunday, June 28th, a Detroit police officer drove his car through a march in Southwest Detroit for black and brown unity against racism and police brutality. As the marchers passed Dix on our way back down Vernor to return to Patton Park as planned, the officer hit several peaceful protestors with his SUV, and then accelerated, throwing to the ground protestors who had been pinned to the hood of his car from the initial impact. This officer must be FIRED AND JAILED for attempted murder. He used his police SUV as a deadly weapon. The protestors who were injured could have easily been killed.

Detroit Police Chief Craig's public statements this morning following this attempted murder have been outrageous and full of bold-faced lies meant to justify the brutality of his police. Mayor Duggan also continues to defend these actions of deadly force used by his police against peaceful protestors. They both must step down.

The police are trying to terrorize our movement because we have refused to stop marching for justice for George Floyd and all those killed or brutalized by police, and to jail ALL killer cops. WE WILL NOT BE INTIMIDATED. This police officer has added himself to the list of police who must be fired and jailed. Our integrated movement has won more victories in the last 4 weeks than 50 years of speechifying of politicians. We are on the move and we intend to keep winning. We March Today, We March Tomorrow, and We Keep Marching Until We Win! OUR REAL POWER IS IN THE STREETS!
