Dear Senator _____ (Levin, Reigle, Biden, Simon,
U S Sentae Johnston, Ford, Domenici)
Washington, DC 20510

I am very concerned about Radioactive Waste issues, some of which you will have to vote on immediately.

YES, please support S. 612 repealing the Warner Amendment (prohibited radiation victims from suing defense contractors)

NO, please oppose S 1846 subsidizing the nuclear industry even further and nationalizing uranium enrichment.

NO on Price-Anderson, denying citizens rights to sue and over-10-year extensions.

NO, on Emergency Accessa rule of NRC, superceding state and compact authority.

I shall anticipate your viewpoints on these very serious issues and encourage your support for on-site, monitored, retrievable storage which will allow us another 50 years in which to research and develop a far more responsible nuclear and energy policy.

Sincerely,
NAME ADDRESS PHONE

Washington, D.C. 20555

Dear Commission,

I am very concerned about Radioactive Waste issues.
Please: Review and develop a more responsible nuclear/energy policy. Meanwhile, respect state and compact authority.

- Stop NRC's Emergency Access ruling
- Restrict "Host" state dumps to designated commercial wastes, none greater than proper Class C
- Approve on-site, monitored, retrievable storage.

For all of us and our progeny. Sincerely,

SHORTY VERSION ADD NAME ADDRESS AND PHONE AT BOTTOM. CUT THIS OFF.
SEND TO STATE AND NATIONAL LEGISLATORS AND CANDIDATES
AND COPIES TO ACTIVISTS AND ORGANIZATIONS (NETWORK SUPPORT!)

I am very concerned about developing a responsible energy, nuclear and radioactive waste policy.

Please inform me of your views. Thank you.

Sincerely,
