Fall 2009 Grade

(To be completed by Faculty Sponsor an/or Day to Day Supervisor)

Emplid: 25395456

Student Name: Brittany Smith

Project#: 13736

Research Sponsor: Linh Nguyen

Day to Day Supervisor: Linh Nguyen

Students will receive a "Y" grade for Fall Term if they are making good academic and research progress and you have no concerns about your student's performance. At the end of Winter Term we will ask you to provide a letter grade (A-E) and this grade will be posted for both fall and winter terms. We would like you to provide feedback to your student at this time on his/her performance so they can understand your expectations and current evaluation of their work.

RESEARCH PERFORMANCE

- ☒ Strong performance, demonstrates excellent research skills, an active desire to learn, records data carefully, shows initiative and attempts new things, responds well to feedback, is reliable.
- ☐ Adequate performance but could show more initiative, ask more questions, be more careful and attentive to detail, could be more engaged and independent.
- ☐ Needs improvement in terms of reliability, interest, etc. (Please provide more specific comments below)

ABSTRACT (OR OTHER END OF TERM ASSIGNMENT)

- ☒ Well written, done in timely fashion, understands project.
- ☐ Adequate but needs improvement in writing skills and overall understanding.
- ☐ Poorly written, done at last minute, concern about understanding of project.

Comments:

(Please provide comments on student's overall performance and/or any areas that need improvement.)

Brittany has done a great job so far with this project, especially as it is a new project for the office. She has taken some good initiative to make the project/research useful for the needs of the office. She shows great passion and interest in the topic and has been very autonomous with it but has taken directives and suggestions well to modify things as needed. Look forward to another semester with her and seeing where we can end up at the end of this new term.
