Greetings IWG,

First, the reflection room in Trotter (on Washtenaw) is now open! It is located on the first floor directly across from the front desk. Please spread the word and of course, utilize the space.

Second, for those of you at the last IWG meeting, you know that MESA is on a quest to update our reflection room information online. **We are taking a crowd-sourcing approach to this information and need your help.**

At the recommendation of folks from our last meeting, we have created a spreadsheet. There are TWO tabs - one for instructions and the other to input information. If you're interested in helping, please note your name and contact information next to the room you are going to update - there is a space for this in the spreadsheet (look for the blue columns in the second tab). **Please complete this by December 4!** As always, we are open to supporting from anyone willing to stop by the rooms and take a look for us, please feel free to enlist friends and colleagues to assist. After December 4, I'll work to fill in any gaps and hopefully have our website updated in January 2019!

2 additional notes: 1) there is a pdf version attached if it's easier for folks to read. If you have trouble utilizing the google spreadsheet, just let me know. I am happy to assist and 2) please also know that I am working with folks outside the IWG to check in around reflection room needs as well!

Thank you so much for your help. As always, let me know if you have any questions or concerns.

Abby

Hi IWG,

Just sending this out as a call for support regarding helping MESA update our information regarding reflection rooms. Commonly used rooms that have not been updated on the spreadsheet are:

Chemistry
EECS
Hatcher
Michigan League
North Quad
SPH
Weiser [suggestion: stop by before/after the IWG meeting on Friday and let me know!]

If anyone is in these spaces, please update the spreadsheet the next time you visit, if possible, or email me the information so that I can update it.

If you plan on visiting a room, please do so and update the information by Wednesday, Dec. 12 (study day!).

Best,
Abby
