Good afternoon all,

Earlier this week, a UM professor declined to write a letter for a student intending to study abroad in Israel, citing his moral and ethical support for the boycott, divestment, and sanctions movement towards Israel.

The professor has since been on the receiving end of significant lashback. Should you wish to sign a letter in support of his actions, you can do so here.

Best,

Jumanah

Thanks for your email. I am away from the office until Monday, September 24 and will have limited access to my email. For urgent questions regarding the Islamic Studies Program, please contact <IslamicStudies@umich.edu>.

Good morning all,

As a follow up to my previous email, an alumni letter of support for Professor John Cheney-Lippold has also been written (whereas the letter in support that was shared last week was for faculty and staff). Please sign and share, if you feel so inclined.

Best,

Jumanah

Good morning,

As a follow up, the UM faculty senate decided that recommendations should be left to the discretion of faculty members.

Best,

Jumanah
