Dear Leadership Assembly Participant:

We thank you for your willingness to participate in the Leadership Assembly, which TAFM held on Dec. 8 – even if your schedule did not enable you to attend after all.

Those who were present engaged in solid discussions about possible mechanisms for institutions, agencies, and government bodies in Michigan to pursue in order both to ensure a positive implementation of Proposal 2 and to tackle some of the underlying problems that led to the use of affirmative action preferences in the first place. We spoke generally about ideas for our state as a whole, and specifically about possible role(s) that TAFM might play in this regard.

The attached document gives an overview of the directions that TAFM will pursue in the months ahead. We are most grateful for your input, and we continue to welcome your ideas. This document and all the handouts from the meeting (as well as written versions of delivered remarks and copies of the slide presentations) are available on TAFM's website at http://towardafairmichigan.org.

At the meeting, we asked participants to indicate if they would like to continue to be an active participant in some of TAFM's initiatives around this issue. We now invite those who could not attend on the 8th to indicate your ongoing interest, by return e-mail.

Also attached is a contact list so that you may stay in touch with each other.

Again, many thanks!

Carol Allen
Program Director
