Only **one** city in the entire country has an amendment like the one they are making us vote on. In 1993, Cincinnati excluded protections for gay people from their city charter.

Cincinnati reports they have lost as much as $46 million in business because of their anti-gay amendment*

*according to Eric H. Kearney, Chair of the Greater Cincinnati Convention and Visitors Bureau.

In Ypsilanti,

"Our business community knows we need a growing and vital city where everyone is welcome. **Vote NO! on the amendment.**"

Ivan Harner, *Chairman, Depot Town DDA*

"We believe a no vote is not just the right thing to do, but it is a vote for the continued revitalization of the community. **A city that takes a stand against discrimination on all fronts is a city that welcomes economic development and embraces a diverse work force."**

The Ann Arbor News, Editorial, October 14th, 2002

The question is simple:

Should it be legal to discriminate against gay people?

The answer is NO!

Local businesses saying NO! to discrimination:
