It's a simple question: Should it be legal to discriminate against gay people?

The answer is equally simple: NO

Yet, this is what Ypsilanti voters will be asked this November. We already answered this question once, 1998. We soundly said **NO** in a historic vote, by one of the largest margins ever in the country.

Some people, who are not even from Ypsilanti, have asked us to vote on this AGAIN! They are so eager to bring this cruel question to us again, that they lied to the voters to get enough signatures to put this on the ballot.

These people will not stop lying with getting the petitions. They will try to tell you how evil gay people are.

But once someone lies to you, why believe them the second time?

When you vote in November,

watch out for a ballot measure that asks to ammend the city charter. This ammendment will actually make it legal to discriminate against "homosexual, lesbian and bisexual" people! Not only that, but *it will completely eliminate our current non-discrimination ordinance that protects EVERYONE.*

When you see that ballot measure, be sure to vote NO

Q: Should it be legal to discriminate against gay people?

A. NO
