Dear Council Supporter:

Here is the latest voting record for every United States Senator on key national security issues.

Council for a Livable World asks that you take this opportunity to commend or criticize these votes to your home state Senators and to Senators to whom you have made campaign contributions. They need to hear from you.

Alternatively, you may wish to send to your Senators your opinion on legislation likely to come before them this year:

- Withdrawing American troops from Iraq;
- Expanding the nuclear non-proliferation programs designed to destroy nuclear weapons and safeguard nuclear materials in other countries;
- Preventing the development of a new generation of U.S. nuclear weapons while trying to prevent other countries from going nuclear;
- Expanding homeland security measures to protect food and water supplies, nuclear and chemical plants and other critical facilities.

Council lobbyists will communicate and visit with Senators and Representatives on a regular basis throughout the year. You can assist by sharing your opinions with your Senators and telling them that you support the Council's leadership on these most important issues.

We are all in this together, working for diplomatic solutions in a dangerous world. We thank you for your support.

Senator Gary Hart
Chair

P.S. Respectfully we enclose a contribution card and an envelope for you to send your annual dues.
