The Advanced Education in General Dentistry Program

Commendations

"The program is commended for providing residents outstanding learning experiences through its affiliation with three community clinics."

"The program director is commended for his administration of the program."

"The program is commended for its practice management portion of the curriculum."

During 2002, more than 2,400 procedures were performed by residents in the School of Dentistry's Advanced Education in General Dentistry program at community outreach clinics across Michigan. Drs. Thomas Veryser (left), assistant dean for community and outreach; Melissa Chui, a second-year resident; and Dennis Fasbinder, AEGD program director, review and discuss some of the procedures that were conducted.
