Archive of CRMS-US Website

The Copyright Review Management System (CRMS) supports copyright review of works in HathiTrust. Its creation was supported by three National Leadership Grants from the Institute of Museum and Library Services (IMLS): LG-05-08-0141-08, LG-05-11-0150-11, and LG-05-14-0042-14.

CRMS-US denotes the initial version of the project, begun in 2008. John Wilkin was the Principal Investigator. Its website was “Copyright Review Management System - IMLS National Leadership Grant,” with an original URL of https://www.lib.umich.edu/imls-national-leadership-grant-crms. That site was archived by the Bentley Historical Library and is now offline. The final archived copy of each page of that site is listed below.
