

CAREER ADVISORY PANEL

Sorted by Name

James L. Abelson, M.D., Ph.D.

Title:	Associate Professor of Psychiatry	Education:	M.A. and Ph.D.: Michigan State University M.D.: University of Michigan Ph.D.: Clinical Psychology
Clinical Activities:	Psychopharmacological and psychotherapeutic treatment of patients with anxiety and affective disorders.	Research Interests:	Neuroendocrinology and psychobiology of anxiety. Neuroendocrine stress systems. Treatment of anxiety disorders.
Campus Address:	Department of Psychiatry UH 9D / Box 0118	Office Phone:	(734) 764-5348
E-mail:	jabelson@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice, Teaching, Administration

James Albers, M.D., Ph.D.

Title:	Professor of Neurology/Psychiatry	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Evaluation and treatment of neuromuscular disorders. Attend EMG laboratory.	Research Interests:	Effects (clinical) of toxins on the neurons system (some clinical epidemiology)
Campus Address:	Department of Neurology 1C325 UH / Box 0032	Office Phone:	(734) 936-8586
E-mail:	jwablbers@umich.edu	Primary Activity:	Clinical Research, Clinical Practice
		Secondary Activities:	

Frederick K. Askari, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine / Gastroenterology	Education:	M.D., Ph.D.: Cornell University Ph.D.: Pharmacology
Clinical Activities:	Liver disease clinic, gastroenterology (consultation and endoscopy). Directs Wilson Disease clinic.	Research Interests:	Interests include genetic liver diseases, hepatitis C, and gene transfer as well as vaccines.
Campus Address:	Department of Internal Medicine 6520 MSRB I / Box 0682	Office Phone:	(734) 763-7722
E-mail:	faskari@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research, Clinical Practice, Teaching, Administration

Mark D. Benson, M.D., Ph.D.

Title:	Lecturer in Internal Medicine / Cardiology	Education:	M.D., Ph.D.: Baylor College of Medicine; Internal Medicine Residency: Johns Hopkins; Cardiology Fellowship: Brigham and Women's Hospital;
--------	--	------------	---

Clinical Activities:	2-3 months of cardiology consults each year	Research Interests:	Posdoctoral fellowship: Harvard Medical School Smooth muscle differentiation
Campus Address:	Department of Internal Medicine 7301E MSRB III / Box 0644	Office Phone:	(734) 936-9548
E-mail:	mrbenson@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

R. Alexander Blackwood, M.D., Ph.D.

Title:	Associate Professor of Pediatric Infectious Diseases	Education:	M.D., Ph.D.: Columbia University
Clinical Activities:	Pediatric Infectious Diseases	Research Interests:	Role of phospholipid metabolism in neutrophil degranulation. The mechanism by which neutrophil azurophil and specific granules fuse with the plasma membrane.
Campus Address:	Department of Pediatrics 7510A MSRB I / Box 0684	Office Phone:	(734) 763-2440; 763-7360 (lab)
E-mail:	rab@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching

Mila Blaivas, M.D., Ph.D.

Title:	Associate Professor of Pathology/ Neuropathology	Education:	M.D., Ph.D.: Russia, Moscow, Brain Institute
Clinical Activities:	Diagnosis of brain, muscle and nerve diseases.	Research Interests:	Origin and behaviour of temporal lobe tumors of brain. Multiple collaborative projects involving basic and clinical research of brain, muscle and nerves.
Campus Address:	Department of Pathology 4213 Medical Science I / Box 0602	Office Phone:	(734) 936-1889
E-mail:	Blaivas@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research, Clinical Research, Teaching, Administration

Charles Burant, M.D., Ph.D.

Title:	Associate Professor of Pathology/ Neuropathology	Education:	M.D., Ph.D.: Medical University of South Carolina; Residency: University of California, San Francisco; Fellowship: University of Chicago
Clinical Activities:	Attend on Endocrinology Clinic per week and also work on the Endocrinology consult service	Research Interests:	The mechanism of insulin resistance and B-cell failure in insulin resistance, Role of islet precursor cells in islet growth and failure.
Campus Address:	Department of Internal Medicine 5570D MSRB II / Box 0678	Office Phone:	(734) 615-3481
E-mail:	burantc@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research, Clinical Practice,

Teaching

Oliver G. Cameron, M.D., Ph.D.

Title:	Professor of Psychiatry	Education:	M.D., Ph.D.: University of Chicago Ph.D.: Biopsychology
Clinical Activities:	Inpatient (and some outpatient and consultation) adult psychiatry.	Research Interests:	Functional imaging (PET) with interoception and anxiety. Adrenergic psychobiology of anxiety and depression.
Campus Address:	Department of Psychiatry 9D-9814 UH / Box 0118	Office Phone:	(734) 936-4960
E-mail:		Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice, Teaching

John R. Charpie, M.D., Ph.D.

Title:	Clinical Associate Professor of Pediatrics/Pediatric Cardiology	Education:	
Clinical Activities:	Pediatric Cardiac Intensive Care Unit Attending Physician Diagnostic Cardiac Catheterization Laboratory Attending Physician	Research Interests:	Vascular biology - peripheral vascular smooth muscle and endothelium. Hypertension. Nitric oxide - Physiology and biology.
Campus Address:	Department of Pediatrics L1242 Women's / Box 0204	Office Phone:	(734) 936-7786
E-mail:	jcharpie@umich.edu	Primary Activity:	Basic Reserch (40%)
		Secondary Activities:	Clinical Research, Clinical Practice, Teaching (60%)

Jian-Jun Chen, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine	Education:	M.D: Shanghai Medical University Ph.D.: SUNY at Buffalo
Clinical Activities:	GI attending	Research Interests:	Tumor immunology; NF-KB activation and inflammation
Campus Address:	Department of Internal Medicine 4510C MSRB I / Box 0650	Office Phone:	(734) 936-5597
E-mail:	jjjchen@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Arul M. Chinnaiyan, M.D., Ph.D.

Title:	Assistant Professor of Pathology and Urology Clinical Pathology Laboratories/ Research	Education:	M.D., Ph.D.: University of Michigan - 1999
Clinical Activities:	Clinical Pathology, Clinical Genomics	Research Interests:	apoptosis, microarray technologies, clinical pathology
Campus Address:	Department of Pathology 4237 Med Sci I / Box 0602	Office Phone:	(734) 936-1887
E-mail:	arul@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Pathology

Kathleen L. Collins, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine/Infectious Disease and Medical Genetics, Microbiology and Immunology	Education:	M.D., Ph.D.: Johns Hopkins University School of Medicine
Clinical Activities:		Research Interests:	Molecular Mechanisms of HIV disease pathogenesis.
Campus Address:	Department of Internal Medicine 4301 MSRB III / Box 0638	Office Phone:	(734) 615-1320
E-mail:	klcollin@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Teaching

Marie E. Csete, M.D., Ph.D.

Title:	Associate Professor of Anesthesiology Assistant Professor of Cell and Developmental Biology	Education:	M.D.: Columbia University, College of Physicians and Surgeons Ph.D.: California Institute of Technology
Clinical Activities:	Anesthetic management of surgical patients. I have particular interest in the care of patients undergoing liver transplantation.	Research Interests:	We study the role of physiologic gases, particularly oxygen, in regulating stem cell proliferation, cell death and differentiation. Skeletal muscle development and dopaminergic neuron differentiation are most extensively studied as model systems in the lab.
Campus Address:	Anesthesiology Research Labs 7450 Medical Science I / 0615	Office Phone:	(734) 647-7614
E-mail:	csete@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research, Clinical Practice and Teaching

Steven E. Domino, M.D., Ph.D.

Title:	Assistant Professor and Assistant Research Scientist, Reproductive Sciences Program	Education:	M.D., Ph.D.: Vanderbilt University (MSTP 1990 Graduate)
Clinical Activities:	General gynecology at VA hospital. Obstetrical night call at UMMC.	Research Interests:	Glycobiology. Cell surface carbohydrate. Blastocyst implantation. Colon tumor metastasis. Glycoms
Campus Address:	Department of Obstetrics and Gynecology 6428 Medical Science I / Box 0617	Office Phone:	(734) 647-9562 Pager: 936-6266 #5386
E-mail:	sedomino@med.umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice and Teaching

Kenneth Dornfield, M.D., Ph.D.

Title:	Lecturer	Education:	M.D., Ph.D.: University of Minnesota, Biochemistry Reidency: University of Michigan, Radiation Oncology
Clinical Activities:	Radiation Oncologist with a general practice at the Ann Arbor VA	Research Interests:	Gene therapy with cytosine deaminase; DNA repair - using yeast genetics to understand DNA

Campus Address:	Radiation Biology 1331 E Ann Street 3-005 / Box 0582	Office Phone:	mismatch repair (734) 936-9156
E-mail:	kdornfel@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

James T. Elder, M.D., Ph.D.

Title:	Associate Professor of Dermatology	Education:	M.D., Ph.D.: Yale University
Clinical Activities:	General Dermatology	Research Interests:	ErbB signalling in wound healing and cancer Genetics of psoriasis Function of S100 proteins
Campus Address:	Department of Dermatology 3312 CCGC / Box 0932	Office Phone:	(734) 763-0355
E-mail:	jelder@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching

Petter Eldevik, M.D., Ph.D.

Title:	Clinical Professor of Radiology (Neuro), MRI	Education:	M.D.: Bergen, Norway Ph.D.: Oslo, Norway
Clinical Activities:	Working as a neuro-radiologist; teaching medical students, residents, fellows	Research Interests:	MRI; contrast media
Campus Address:	Department of Radiology UH B2 B311A / Box 0030	Office Phone:	(734) 936-6905
E-mail:	eldevik@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Teaching

Victor M. Elner, M.D., Ph.D.

Title:	Professor of Ophthalmology Associate Professor of Pathology	Education:	A.B., M.D., Ph.D.: University of Chicago
Clinical Activities:	Eye plastic surgery; eye pathology	Research Interests:	Basic research in inflammation and repair in ocular tissue
Campus Address:	Kellogg Eye Center 1000 Wall Street / Box 0714	Office Phone:	(734) 764-4182
E-mail:	velner@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research, Clinical Research, Teaching

William D. Ensminger, M.D., Ph.D.

Title:	Professor of Internal Medicine (Oncology), Professor of Pharmacology	Education:	M.D: Harvard Medical School Ph.D.: Rockefeller University
Clinical Activities:	Focus on regional treatments of liver cancers with hepatic arterial drug infusions and radiotherapy, including radioactive microspheres.	Research Interests:	Investigating gene therapy for liver cancers in a rat model. Investigating prevention of bile duct damage which occurs with regional chemotherapy.
Campus Address:	Department of Pharmacology 3709 Upjohn Center / Box 0504	Office Phone:	(734) 764-5468

E-mail:	ensminge@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Basic Research

Harry P. Erba, M.D., Ph.D.

Title:	Clinical Assistant Professor of Internal Medicine/Hematology/Oncology	Education:	B.S.: Yale University M.D., Ph.D.: Stanford University
Clinical Activities:	Clinical research in leukemia	Research Interests:	Leukemi/myelodysplastic syndrome; drug development
Campus Address:	1-355 Cancer Center / 0922	Office Phone:	(734) 647-8921
E-mail:	hperba@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice; teaching

Eric R. Fearon, M.D., Ph.D.

Title:	Professor of Internal Medicine, Human Genetics, and Pathology	Education:	M.D., Ph.D.: Johns Hopkins University
Clinical Activities:		Research Interests:	Tumor suppressor gene and oncogene defects in cancer.
Campus Address:	Department of Internal Medicine 4301 MSRB I / Box 0638	Office Phone:	(734) 764-1549
E-mail:	fearon@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Teaching, Administration

Eva L. Feldman, M.D., Ph.D.

Title:	Professor of Neurology	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Complications of diabetes/ALS	Research Interests:	Pathogenesis of diabetic complications and ALS
Campus Address:	Department of Neurology 4414 Kresge III / Box 0558	Office Phone:	(734) 763-7274
E-mail:	efeldman@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Jami Foreback, M.D., Ph.D.

Title:	Resident in Internal Medicine	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Residency	Research Interests:	None currently
Campus Address:		Office Phone:	(734) 936-6266 Pager 12390
E-mail:	jlfore@umich.edu	Primary Activity:	Clinical Practice and Teaching medical students
		Secondary Activities:	Teaching

Kirk Frey, M.D., Ph.D.

Title:	Professor and Senior Research Scientist in Radiology (Nuclear Medicine) and Neurology	Education:	M.D., Ph.D.: University of Michigan, MSTP graudate
Clinical Activities:	Neurology-movement disorders, clinic co-director; Nuclear medicine-general and positron emission tomography; clinical staffing	Research Interests:	Neuroregenerative diseases (Alzheimer's, Parkinson's, etc.) Neurochemistry

Campus Address:	B1G-412 UH / Box 0028	Office Phone:	(734) 936-5385
E-mail:	kfrey@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Basic Research; Clinical Practice; Teaching

Douglas Gelb, M.D., Ph.D.

Title:	Clinical Professor of Neurology	Education:	M.D., Ph.D.: University of Chicago, Pritzker School of Medicine
Clinical Activities:	I see patients in the outpatient neurology department and I attend on the neurology inpatient and consult services several months each year.	Research Interests:	I collaborate in some clinical research projects concerning patients with dementia. I also do some research involving medical education.
Campus Address:	1914 Taubman Center / Box 0316	Office Phone:	(734) 936-9045
E-mail:	dgelb@umich.edu	Primary Activity:	Teaching
		Secondary Activities:	Clinical Practice

Thomas J. Giordano, M.D., Ph.D.

Title:	Clinical Associate Professor of Pathology	Education:	M.D.: UMDNJ-Robert Wood Johnson Medical School Ph.D.: Rutgers University
Clinical Activities:	Surgical Pathology	Research Interests:	neoplasia, especially endocrine, gene expression profiling
Campus Address:	Department of Pathology 2G332 UH / Box 0054	Office Phone:	(734) 936-6776
E-mail:	giordano@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Basic Research, Clinical Practice, Teaching

Thomas M. Glaser, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine/Medical Genetics and Human Genetics	Education:	M.S.: Stanford; Ph.D. : MIT M.D.: Harvard (was in MSTP at Harvard Medical School)
Clinical Activities:	n/a	Research Interests:	Genetics of eye development and disease; mouse genetics
Campus Address:	Department of Int. Med. & Human Genetics 4301 MSRB I / Box 0650	Office Phone:	(734) 764-4580 or Lab (734) 647-3755
E-mail:	tglaser@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	

Diana Gomez Hassan, M.D., Ph.D.

Title:	Lecturer in Radiology/ Neuroradiology	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	I read all CT, Mri pertaining to the brain and spinal cord for both adults and pediatric patients.	Research Interests:	Epilepsy imaging
Campus Address:	B2311 UH / Box 0030	Office Phone:	(734) 936-8868 or Pager #5985
E-mail:	dmgh@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Clinical Research, Teaching, Administration

Stephen B. Gruber, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine/Medical Genetics	Education:	B.A., M.D.: University of Pennsylvania; MPH, Ph.D.: Yale University; Internship and Residency in Internal Medicine - University Pennsylvania; Fellowship in Medical Oncology - Johns Hopkins University; Residency/Fellowship in Medical Genetics - University of Michigan
Clinical Activities:	Director, Cancer Genetics Clinic practicing medical oncologist/geneticist who specializes in inherited susceptibility to cancer	Research Interests:	Genetics epidemiology of cancer, focusing on gene-environment interactions; colorectal cancer; melanoma
Campus Address:	4301 MSRB III / Box 0638	Office Phone:	(734) 615-9712
E-mail:	sgruber@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Basic Research; Clinical Practice, Teaching

Karen Hall, M.D., Ph.D.

Title:	Assistant Professor, Dept. of Internal Medicine Research Scientist, GRECC, Ann Arbor VAMC	Education:	Ph.D., M.D.: University of Toronto
Clinical Activities:	Geriatric Medicine (outpatient, inpatient), General Medicine (inpatient). Teaching House Officers. Special interest in gastrointestinal problems in the elderly	Research Interests:	Molecular physiology of neuropathy in aging and diabetes mellitus; calcium channel function; mechanisms of neuroprotection.
Campus Address:	VAMC GRECC 11-G / Box 2399	Office Phone:	(734) 761-5564
E-mail:	kehall@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Gary D. Hammer, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine-Endocrinology & Metabolism/Physiology	Education:	M.D., Ph.D.: Tufts University; Internal Medicine Residency: UCSF; Endocrinology & Metabolism Fellowship: UCSF; Post-doc: UCSF (Holly Ingraham, Ph.D.)
Clinical Activities:	I have a faculty clinic (one/week) where I see a wide variety of endocrine cases, with a particular interest in pituitary, adrenal and gonadal disease. I co-direct the Adrenal clinic in the Cancer Center (which meets one/month), where we see patients with adrenal diseases primarily adrenal tumors	Research Interests:	My laboratory uses a variety of molecular, genetics and cell biology techniques aimed at understanding the transcriptional control of adrenal growth in development and disease.
Campus Address:	5560A MSRB II / Box 0678	Office Phone:	(734) 936-5033
E-mail:	ghammer@umich.edu	Primary Activity:	Basic Research

Secondary Activities: Clinical Practice , Teaching

Daniel Hamstra, M.D., Ph.D.

Title:	Resident Physician in Radiation Oncology	Education:	M.D., Ph.D.: University of Michigan - 2001 MSTP Graduate
Clinical Activities:	Training in clinical radiation oncology	Research Interests:	Current research involves the molecular imaging of p53 activation and apoptosis in whole animal models to evaluate tumorigenesis and response to tumor therapy.
Campus Address:	2F208 UH / Box 0053	Office Phone:	
E-mail:	dhamm@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research; Clinical Research

Samir M. Hanash, M.D., Ph.D.

Title:	Professor of Pediatrics Hematology-Oncology	Education:	M.D.: American University of Beirut Ph.D.: University of Michigan Ph.D.: Human Genetics
Clinical Activities:	Attending in Pediatrics Hematology-Oncology	Research Interests:	Molecular genetics of cancer.
Campus Address:	Department of Pediatrics and Communicable Diseases A510 MSRB I / Box 0684	Office Phone:	(734) 763-9311
E-mail:	shanash@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research, Clinical Practice

Laura Hirshbein, M.D., Ph.D.

Title:	Clinical Instructor in Psychiatry	Education:	M.D.: University of Michigan, 1997 Ph.D.: Johns Hopkins University - History of Medicine - 2002
Clinical Activities:	Psychiatric Emergency Services; Adult inpatient services-management of acute psychiatric patients	Research Interests:	I am currently working on a book on the history of depression in the 20th century. I am also doing a small amount of health services research in emergency psychiatry
Campus Address:	UH 9C 9151 / Box 0120	Office Phone:	(734) 936-4960
E-mail:	lauradh@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research , Clinical Research; Teaching

Ronald W. Holz, M.D., Ph.D.

Title:	Professor of Pharmacology	Education:	M.D., Ph.D.: Albert Einstein College of Medicine Ph.D.: Physiology, 1970
Clinical Activities:		Research Interests:	
Campus Address:	Department of Pharmacology 1301 MSRB III / Box 0632	Office Phone:	(734) 764-2267
E-mail:	holz@umich.edu	Primary Activity:	Research and teaching
		Secondary Activities:	

Jonathon W. Homeister, M.D., Ph.D.

Title:	Associate in Howard Hughes Medical Institute	Education:	M.D., Ph.D.: University of Michigan Ph.D. - Pharmacology
Clinical Activities:	Attending physician, department of pathology	Research Interests:	Understanding the molecular mechanisms used by leukocytes, particularly monocytes to extravasate to secondary lymphoid organs and sites of inflammation. Application of this knowledge toward understanding the mechanisms of atherosclerotic plaque formation.
Campus Address:	Department of Pathology 3500 MSRB I / Box 0650	Office Phone:	(734) 747-4756
E-mail:	homeiste@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Joel D. Howell, M.D., Ph.D.

Title:	Professor of Internal Medicine, History and Health Management and Policy	Education:	M.D.: University of Chicago Ph.D.: in History and Sociology of Science, University of Pennsylvania
Clinical Activities:	Attend regularly in the outpatient Internal Medicine Clinics as well as in the inpatient wards.	Research Interests:	I am attempting to understand how and why American medicine has become so obsessed with the notion that science and technology are and should be central for excellent health care.
Campus Address:	Clinical Scholars Program 6312 Med Sci 1 / Box 0604	Office Phone:	(734) 647-4844
E-mail:	jhowell@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching, Administration

Jeffrey W. Innis, M.D., Ph.D.

Title:	Associate Professor of Human Genetics Associate Professor of Pediatrics	Education:	Associate Professor of Human Genetics Associate Professor of Pediatrics M.D., Ph.D.: University of Miami, Miami, FL Ph.D.: Biochemistry
Clinical Activities:	Evaluation and management of pediatric patients with birth defects, genetic syndromes, chromosome anomalies, and inborn errors of metabolism. Director, Medical Genetics Residency Program.	Research Interests:	Genetics of human birth defects; genetics of limb malformations; Hox genes and patterning.
Campus Address:	Department of Human Genetics M4811 Med Sci II / Box 0618	Office Phone:	(734) 647-3817
E-mail:	innis@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching, Administration

Stevo Julius, M.D., Sc.D.

Title:	Professor of Medicine and Physiology	Education:	M.D.: Zagreb, Croatia, 1953 Sc.D.: Zagreb, Croatia, 1964
Clinical Activities:	n/a	Research Interests:	Role of the nervous system in hypertension. Insulin resistance and obesity in hypertension. Epidemiology and treatment of hypertension.
Campus Address:	Department of Internal Medicine 3918 Taubman Center / Box 0356	Office Phone:	(734) 936-4790
E-mail:	n/a	Primary Activity:	Clinical Research
		Secondary Activities:	Basic Research, Teaching

Catherine Keegan, M.D., Ph.D.

Title:	Lecturer in Medical Genetics	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Attending a pediatric genetics service	Research Interests:	Adrenal development. Post-doc in Gary Hammer's Lab
Campus Address:	Hammer Lab 5552 MSRB II / Box 0678	Office Phone:	(734) 763-6289
E-mail:	keeganc@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Mohamed Khan, M.D., Ph.D.

Title:	Assistant Professor of Radiation Oncology	Education:	M.D.: University of Chicago Ph.D.: University of California, Santa Barbara - Biochemistry and Molecular Biology
Clinical Activities:	Radiation Oncologist providing care to all cancer sites at VA Hospital	Research Interests:	Tumor Angiogenesis; Exploring differences between tumor vs. normal microvasculature and development of novel nanoparticulates to treat tumor microvasculature; Microarray and proteomic analysis of human endothelial cells using in vivo and in vitro model systems
Campus Address:	4303 CCGC / Box 0936	Office Phone:	(734) 764-9922
E-mail:	mokhan@mich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

William M. Kuzon, Jr., M.D., Ph.D.

Title:	Associate Professor of Surgery Associate Chair for Research, Surgery Senior Associate Research Scientist, Institute of Gerontology	Education:	M.D.: University of Rochester Ph.D.: University of Toronto
Clinical Activities:	Reconstructive surgery with an emphasis on microvascular surgery	Research Interests:	Mechanisms responsible for mechanical dysfunction in skeletal muscle
Campus Address:	Department of Surgery 2130 Taubman Center / Box 0340	Office Phone:	(734) 936-5890 (Hosp), 936-2517 (lab)

E-mail:	wkuzon@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research

Kenneth M. Langa, M.D., Ph.D.

Title:	Assistant Professor, Department of Internal Medicine; Faculty Associate, Institute for Social Research	Education:	M.D.: Pritzker School of Medicine, Univ. of Chicago Ph.D.: Harris Graduate School of Public Policy Studies, University of Chicago
Clinical Activities:	Outpatient general medicine	Research Interests:	Economic of aging; costs of chronic diseases; measuring quality of life in older individuals
Campus Address:	300 NIB, Room 7E01 / Box 0429	Office Phone:	(734) 615-8341
E-mail:	klanga@umich.edu	Primary Activity:	Health Services Research
		Secondary Activities:	Clinical Research; Clinical Practice; Teaching; Administration

Theodore S. Lawrence, M.D., Ph.D.

Title:	Isadore Lampe Professor and Chair of Radiation Oncology	Education:	Ph.D. : Rockefeller University 1979 M.D.: Cornell University 1980
Clinical Activities:	Treatment of hepatocellular carcinoma, colorectal cancer, pancreatic cancer with chemoradiation.	Research Interests:	Drug-radiation interaction, cell cycle, gene therapy.
Campus Address:	Radiation Oncology B2C490 UH / Box 0010	Office Phone:	(734) 647-9955
E-mail:	tsl@umich.edu	Primary Activity:	Basic Research and Clinical Research and Practice
		Secondary Activities:	Teaching, Administration, Clinical Research

Steven Leber, M.D., Ph.D.

Title:	Clinical Associate Professor of Pediatrics and Neurology (Div. of Pediatric Neurology)	Education:	M.D., Ph.D.: Albert Einstein College of Medicine
Clinical Activities:	General Pediatric Neurology	Research Interests:	Internet applications in medicine..
Campus Address:	Department of Pediatrics and Communicable Diseases L3215 Women's Hospital / Box 0203	Office Phone:	(734) 936-4179
E-mail:	leber@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Teaching, Administration

Angel Lee, M.D., Ph.D.

Title:	Assistant Professor of Pharmacology; Affiliate of Bioinformatics	Education:	M.D.: Harvard Medical School Ph.D.: Harvard University
Clinical Activities:	Teaching of medical students	Research Interests:	Cancer biology: Molecular mechanisms governing cellular growth control; signal transductions pathways mediated by growth factors.
Campus Address:	Department of Pharmacology	Office Phone:	(734) 647-6004

2220B MSRB III / Box 632
 E-mail: awmlee@umich.edu
 Primary Activity: Basic Research
 Secondary Activities:

Andrew Lieberman, M.D., Ph.D.

Title:	Assistant Professor of Pathology/ Neuropathology	Education:	M.D., Ph.D.: University of Maryland School of Medicine
Clinical Activities:	I spend 25% of my time as a diagnostic neuropathologist, examining both autopsy and surgical specimens	Research Interests:	My laboratory studies a neurodegenerative disease using cell culture and animal models
Campus Address:	Department of Pathology M4233 Medical Science I / Box 0602	Office Phone:	(734) 936-1887
E-mail:	liebermn@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice; Teaching

Matthew Lorincz, M.D., Ph.D.

Title:	Lecturer in Neurology	Education:	M.D., Ph.D.: Wayne State University
Clinical Activities:	Movement Disorders Clinic and neurology attending	Research Interests:	Huntington's Disease and CAG repeat disorders
Campus Address:	Department of Neurology 4412 Kresge III / Box 0588	Office Phone:	(734) 763-3776
E-mail:	lorincz@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Peter Lucas, M.D., Ph.D.

Title:	Lecturer in Pathology	Education:	M.D.: Vanderbilt University - 1996 Ph.D.: Vanderbilt University - 1992
Clinical Activities:	Surgical pathology with emphasis on application of ancillary molecular tests for diagnosis and prognostication of solid tumors	Research Interests:	Signal transduction with focus on cytoplasmic signaling pathways related to NF-kB activation and their relevance to apoptosis, cellular transformation, and cancer biology
Campus Address:	Department of Pathology 4131 CCGC	Office Phone:	(734) 647-9651
E-mail:	plucas@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research; Clinical Practice; Teaching

Benedict R. Lucchesi, M.D., Ph.D.

Title:	Professor of Pharmacology	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Interact with pharmaceutical companies in preclinical and clinical development of pharmacologic interventions for management of cardiovascular disorders. Provide data required by FDA for initial clinical studies.	Research Interests:	Electrophysiologic mechanisms of lethal cardiac arrhythmias and pharmacologic prevention. Immunologic mechanisms of ischemic myocardial injury and modulation of the complement system. Drugs for the prevention of arterial and venous thrombosis

Campus Address:	Department of Pharmacology 1301C MSRB III / Box 0632	Office Phone:	and induction of thrombolysis. (734) 647-3134
E-mail:	benluc@umich.edu	Primary Activity:	Basic Research/Teaching
		Secondary Activities:	Clinical Research, Administration

Susan Lyons, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine, Division of Hematology-Oncology	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	My clinical activities will include a General Oncology clinic 1/2 day/week and one month of attending on a General Medicine or Oncology service	Research Interests:	I study the control of hematopoietic development using a zebrafish model system
Campus Address:	Department of Internal Medicine 5315 Medical Science I / Box 0612	Office Phone:	(734) 615-6412
E-mail:	syslyons@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching

Paul McKeever, M.D., Ph.D.

Title:	Professor and Chief of Neuropathology	Education:	M.D.: University of California - Davis Ph.D.: Medical University of South Carolina
Clinical Activities:	Diagnosis of neurosurgical specimens from CNS to PNS	Research Interests:	Markers applied to paraffin sections of tissue that enhance diagnosis or prediction of patient outcomes
Campus Address:	Department of Pathology M4207 Medical Science I / Box 0602	Office Phone:	(734) 936-1889
E-mail:	paulmcke@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Teaching; Administration

Alan M. Mellow, M.D., Ph.D.

		Title:	Associate Professor of Psychiatry Chief, Division of Geriatric Psychiatry
Department/Division:	Psychiatry/Geriatric Psychiatry	Education:	M.D., Ph.D.: Northwestern University Ph.D.: Pharmacology
Clinical Activities:	Direct clinical care and supervision of residents and fellows in Geriatric Psychiatry clinics at UM Geriatrics Center and Ann Arbor VAMC.	Research Interests:	Psychopharmacology of Dementia. Phenomenology and outcomes in dementia and geriatric depression.
Campus Address:	Department of Psychiatry B2915 CFOB / Box 0704	Office Phone:	(734) 930-5630
E-mail:	amell@umich.edu	Primary Activity:	Administration/Clinical Research
		Secondary Activities:	Clinical Practice, Teaching

Sofia D. Merajver, Ph.D., M.D.

Title:	Associate Professor of Internal Medicine - Hematology/Oncology	Education:	Ph.D.: University of Maryland M.D.: University of Michigan
--------	--	------------	---

Clinical Activities:	Director of Cancer Risk Evaluation Clinic, specializing in breast and ovarian cancer. Phase I trials of anti-angiogenic agents.	Research Interests:	Molecular genetics of aggressive breast cancer phenotypes. Hereditary breast cancer. Anti-angiogenic approaches mediated by copper deficiency.
Campus Address:	Department of Internal Medicine 7216 CCGC / Box 0948	Office Phone:	(734) 764-2248
E-mail:	smerajve@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research

Juanita L. Merchant, Ph.D., M.D.

Title:	Associate Professor of Internal Medicine - Gastroenterology	Education:	M.D., Ph.D.: Yale Medical School
Clinical Activities:	1 month GI consult attending at the VA 1 or 2x / month endoscopy at the VA	Research Interests:	Transcriptional control; helicobacterpylori/inflammation in the stomach
Campus Address:	Department of Internal Medicine 3510 MSRB I / Box 0650	Office Phone:	(734) 647-2944
E-mail:	Merchanj@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice; Teaching; Administration

Jonathan M. Metzl, M.D., Ph.D.

Title:	Assistant Professor of Psychiatry	Education:	B.A./M.D.: University of Missouri, Kansas City Ph.D.: University of Michigan
Clinical Activities:	Attending, Psychiatry Department, general adult outpatient division	Research Interests:	History of psychiatry; gender and popular cultural studies
Campus Address:	2203 Lane Hall 204 S. State Street / Box 1092	Office Phone:	(734) 647-0782
E-mail:	Jmetzl@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Teaching

Daniel Mikol, M.D., Ph.D.

Title:	Assistant Professor of Neurology Director, MS Clinic	Education:	M.D., Ph.D. University of Chicago
Clinical Activities:	Director, Multiple Sclerosis Clinic	Research Interests:	Investigation of the signal transduction pathways relevant to CNS remyelination
Campus Address:	Department of Neurology 4414 Kresge III / Box 0588	Office Phone:	(734) 763-7270
E-mail:	dmiko@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research; Clinical Practice

Richard A. Miller, M.D., Ph.D.

Title:	Professor of Pathology Associate Director for Geriatrics	Education:	M.D., Ph.D.: Yale University
Clinical Activities:	n/a	Research Interests:	Changes with age in T cell activation, mapping the mouse genes that influence aging, developing new animal models for

Campus Address:	5316 CCGC / Box 0940	Office Phone:	decelerated aging. (734) 936-2122
E-mail:	millerr@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Teaching

Sayoko Moroi, M.D., Ph.D.

Title:	Assistant Professor of Ophthalmology and Visual Sciences	Education:	M.D, Ph.D.: Ohio State University College of Medicine Internship and Residency: Duke University
Clinical Activities:	Medical and surgical care of patients with various forms of glaucoma. Also cataract surgery and anterior segment trauma.	Research Interests:	Molecular characterization of cell signalling pathways in ciliary body, a therapeutic target of the majority of drugs used to treat glaucoma. Pharmacogenetics and glaucoma therapeutics
Campus Address:	Department of Ophthalmology and Visual Sciences Kellog Eye Center / Box 0714	Office Phone:	(734) 763-3732
E-mail:	smoroi@umich.edu	Primary Activity:	Basic/applied research
		Secondary Activities:	Clinical Research, Clinical Practice, Teaching, Administration

Michael W. Mulholland, M.D., Ph.D.

Title:	Professor of Surgery Chair, Department of Surgery	Education:	M.D.: Northwestern University Ph.D.: University of Minnesota
Clinical Activities:	Focus on gastrointestinal surgery with an emphasis on the disorders of the pancreatco-biliary system.	Research Interests:	Signal transduction mechanisms in the enteric nervous system.
Campus Address:	Department of Surgery 2101 Taubman Center / Box 0346	Office Phone:	(734) 936-3236
E-mail:	micham@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research, Teaching, Administration

Charles R. Neal, Jr., M.D., Ph.D.

Title:	Assistant Professor of Pediatrics, Division of Neonatology; Research Scientist, Mental Health Research Institute; Assistant Research Scientist, Center for Human Growth and Development	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Attending physician in level III NICU at UM with call responsibilities.	Research Interests:	Development of the limbic- hypothalamic-pituitary-adrenal stress axis and pain systems. How prematurity, stress of chronic illness of prematurity, and treatment with opiates and glucocorticoids affect its development.
Campus Address:	Department of Pediatrics and Communicable Diseases F5790 Mott / Box 0254	Office Phone:	(734) 763-4109

E-mail:	crnj@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching

Richard R. Neubig, M.D., Ph.D.

Title:	Professor of Pharmacology Associate Professor of Internal Medicine	Education:	M.D., Ph.D.: Harvard University
Clinical Activities:	None. Formerly clinical hypertension.	Research Interests:	Mechanisms of Receptor-mediated signal transduction. G protein signaling and biophysics. RGS proteins as novel drug targets.
Campus Address:	Department of Pharmacology 2220D MSRB III / Box 0632	Office Phone:	(734) 763-3650
E-mail:	rneubig@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Teaching

Akinlolu O. Ojo, M.D., Ph.D.

Title:	Associate Professor of Internal Medicine/Nephrology	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Chronic renal disease; hypertensive nephrosclerosis; clinical transplanation	Research Interests:	Clinical outcome of renal disease and renal transplanation
Campus Address:	Department of Internal Medicine 3914 Taubman Center / Box 0364	Office Phone:	(734) 763-9041
E-mail:	aojo@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice

Craig Okada, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine / Hematology/Oncology	Education:	M.D., Ph.D.: Stanford University
Clinical Activities:	Care of general hematology patients. Lymphoma patient care. Develop tumor Idiotype vaccines for lymphoma.	Research Interests:	We are using a mouse T cell lymphoma model to develop a T cell receptor ID vaccine for the treatment of T cell lymphoma.
Campus Address:	VAAAHS Research Service 11R 2215 Fuller Rd, Ann Arbor, MI 48105	Office Phone:	(734) 769-7100 ext 5466
E-mail:	okadac@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research, Clinical Practice

Anthony Opiari, M.D., Ph.D.

Title:	Assistant Professor of Obstetrics and Gynecology/Gynecologic Oncology	Education:	M.D., Ph.D.: University of Michigan
Clinical Activities:	Diagnosis and treatment of gynecologic diseases with emphasis on pre-invasive coplasms of the cervix and vagina	Research Interests:	Experimental therapeutics and the discovery of drug targets relevant to coplastic and autoimmune diseases
Campus Address:	Department of Obstetrics and Gynecology L4602 WH / Box 0276	Office Phone:	(734) 764-9106

E-mail:	aopipari@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Paresh D. Patel, M.D., Ph.D.

Title:	Research Investigator, Mental Health Research Institute Assistant Professor, Department of Psychiatry, Division of Child Psychiatry	Education:	M.D., Ph.D.: University of Michigan Residency: General Psychiatry, Stanford University Medical Center Fellowship: Child and Adolescent Psychiatry, Stanford Univ. Med. Ctr.
Clinical Activities:	Child and adolescent psychiatry.	Research Interests:	Gene expression regulation of two receptor systems coordinating the hippocampal stress modulation circuit: corticosteroid and serotonin-1a receptors.
Campus Address:	Department of Psychiatry C560 MSRB II / Box 0669	Office Phone:	(734) 647-9862
E-mail:	pdpatel@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Lilli M. Petruzzelli, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine/Hematology Oncology	Education:	M.D., Ph.D.: Albert Einstein College of Medicine
Clinical Activities:	Diagnosis and treatment of patients with hematologic disorders including lymphoma, leukemia, myeloproliferative disorders, coagulation disorders and anemias.	Research Interests:	Regulation of adhesion of leukocytes through the B2 integrins LFA-1 and Mac-1. Our work focuses on the signal transduction events that mediate adhesion through these integrins.
Campus Address:	Division of Hematology Oncology, Department of Internal Medicine 5301B MSRB III / Box 0640	Office Phone:	(734) 647-9912
E-mail:	lpetruzz@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching

Sem H. Phan, Ph.D., M.D.

Title:	Professor and Director, Pathology Graduate Program	Education:	M.D., Ph.D.: Indiana University Ph.D.: Biological Chemistry
Clinical Activities:	Autopsy Service	Research Interests:	Regulation of myofibroblast differentiation and apoptosis in lung injury and repair/fibrosis, and regulation of lung eosinophil recruitment and cytokine gene expression.
Campus Address:	Department of Pathology 4204 Medical Science I / Box 0602	Office Phone:	(734) 763-6454
E-mail:	shphan@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching, Administration

Donald G. Puro, M.D., Ph.D.

Title:	Professor of Ophthalmology/	Education:	M.D., Ph.D.: University of
--------	-----------------------------	------------	----------------------------

Clinical Activities:	Physiology Ophthalmologist.	Research Interests:	Rochester Role of ion channels in retinal physiology and pathophysiology.
Campus Address:	Department of Ophthalmology & Visual Sciences 437 Kellogg Eye Center / Box 0714	Office Phone:	(734) 936-7046
E-mail:	dgpuro@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Michael E. Ray, M.D., Ph.D.

Title:	Resident in Radiation Oncology	Education:	M.D., Ph.D.: University of Michigan, MSTP 1998 Ph.D.: Human Genetics
Clinical Activities:	Resident in radiation oncology, training in all clinical aspects of radiation oncology. Care for patients who are receiving or have received radiation therapy as part of their cancer treatment.	Research Interests:	Field of cancer genetics. Thesis dealt with gene expression related to carcinogenesis in a melanoma model. Future interests will be to apply molecular genetic techniques to study radiation response in malignant and normal tissues.
Campus Address:	B2C470 UH / Box 0010	Office Phone:	(734) 936-4300
E-mail:	mray@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research

Bruce C. Richardson, M.D., Ph.D.

Title:	Professor of Medicine Chief of Rheumatology, VA Hospital	Education:	M.D., Ph.D.: University of Chicago
Clinical Activities:	Run arthritis clinic at VA hospital.	Research Interests:	DNA methylation in autoimmunity and aging.
Campus Address:	Department of Internal Medicine 5310 CCGC / Box 0940	Office Phone:	(734) 763-6940
E-mail:	brichard@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Basic Research, Clinical Practice, Teaching

Theodora Ross, M.D., Ph.D.

Title:	Assistant Professor of Internal Medicine / Hematology/Oncology	Education:	M.D., Ph.D.: Washington University School of Medicine Residency: Brigham & Women's Hospital Fellowship: Dana-Farber Cancer Institute
Clinical Activities:	Breast Cancer Clinic. Oncology consults and/or internal medicine attending.	Research Interests:	The genetics and biology of tumorigenesis and cell traffick.
Campus Address:	Department of Internal Medicine 6322 CCGC / Box 0942	Office Phone:	(734) 615-2578 or (734) 615-5509
E-mail:	tsross@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice

Jonathan M. Rubin, M.D., Ph.D.

Title:	Professor of Radiology	Education:	M.D., Ph.D.: University of Chicago Ph.D.: Biophysics
Clinical Activities:	Division Director of Ultrasound. I manage and participate in the performance and interpretation of medical ultrasound images and studies.	Research Interests:	Ultrasound signal processing particularly related to flow imaging.
Campus Address:	Department of Radiology B1502E UH / Box 0030	Office Phone:	(734) 936-4487
E-mail:	jrubin@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research, Clinical Research, Teaching, Administration

Steven M. Rudich, M.D., Ph.D.

Title:	Assistant Professor of Surgery Division of Transplantation	Education:	B.A., Chemistry, Rutgers College; M. Phil., Ph.D., City University of New York; M.D., Mount Siani School of Medicine
Clinical Activities:	I am a member of the Transplant Surgery Division. I primarily perform liver, kidney, and pancreas transplants, as well as organ procurements. In addition, we manage these patients during their hospital stays and in the outpatient clinics.	Research Interests:	I study organ injury during brain death to try to determine ways to make organs (liver, kidney) more resilient to the effects of massive intracerebral insults. We also are interested in ischemia/reperfusion injury and the use of novel agents to protect the solid organs from cold storage, and reperfusion injuries.
Campus Address:	Department of Surgery 2926 Taubman Center / 0331	Office Phone:	(734) 936-8363
E-mail:	smrudich@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research

Robert Ruiz, M.D., Ph.D.

Title:	Clinical Assistant Professor of Pathology	Education:	M.D., Ph.D.: Duke University
Clinical Activities:	I am a pediatric pathologist, involved in diagnosis of medical and surgical pediatric diseases	Research Interests:	I am interested in tumor cytogenetics and development disorders
Campus Address:	Department of Pathology 2G332 UH / Box 0054	Office Phone:	(734) 936-6775
E-mail:	Robruiz@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Clinical Research; Teaching

Samuel M. Silver, M.D., Ph.D.

Title:	Clinical Associate Professor of Internal Medicine/Hematology/Oncology Bone Marrow Transplantation Program	Education:	M.D.: Cornell University Medical College Ph.D.: The Rockefeller University, Virology
Clinical Activities:	BMT, hematology.	Research Interests:	High-dose chemotherapy. Ex vivo stem cell expansion.
Campus Address:	Department of Internal Medicine B1-207 CCGS / Box 0914	Office Phone:	(734) 936-8456

E-mail:	msilver@umich.edu	Primary Activity:	Administration
		Secondary Activities:	Clinical Research, Clinical Practice, Teaching

David States, M.D., Ph.D.

Title:	Director, Bioinformatics Program; Professor of Human Genetics	Education:	M.D.: Harvard Medical School Ph.D.: Harvard University
Clinical Activities:		Research Interests:	Computational methods to understand eukaryotic genome function with a particular interest in the control of gene expression in the myeloid immune system.
Campus Address:	Department of Human Genetics 4909 Buhl / Box 0618	Office Phone:	(734) 615-5510
E-mail:	dstates@umich.edu	Primary Activity:	
		Secondary Activities:	

David T. Stern, M.D., Ph.D.

Title:	Assistant Professor of General Medicine	Education:	M.D.: Vanderbilt University Ph.D.: Stanford (Education)
Clinical Activities:	General internal medicine	Research Interests:	Teaching and evaluating professional behavior; effects of international medical education experiences
Campus Address:	Department of General Medicine 300 NIB 7E02 / Box 0429	Office Phone:	(734) 936-4787
E-mail:	dstern@umich.edu	Primary Activity:	Administration
		Secondary Activities:	Basic Research

Ralph H. Stern, M.D., Ph.D.

Title:	Adjunct Assistant Professor of Internal Medicine/Hypertension	Education:	M.D.: University of Miami Ph.D.: Johns Hopkins University
Clinical Activities:	Hypertension; lipid disorders	Research Interests:	Clinical pharmacology of CV medications
Campus Address:	Department of Internal Medicine 3918 Tauman Center / Box 0356	Office Phone:	(734) 622-7696
E-mail:	sterng@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice

Robert F. Todd, M.D., Ph.D.

Title:	Professor of Internal Medicine Chief, Division of Hematology/Oncology	Education:	M.D., Ph.D.: Duke University
Clinical Activities:	General Medical oncology with a focus on lung, gastrointestinal, and breast carcinoma.	Research Interests:	Characterization of cell surface receptors involved in cellular adhesion (integrins), the inflammatory response, and tissue invasion.
Campus Address:	Department of Internal Medicine 7216 CCGC / Box 0948	Office Phone:	(734) 764-8100
E-mail:	robtodd@umich.edu	Primary Activity:	Administration

Secondary Activities: Basic Research, Clinical Practice, Teaching

Kevin K. Tremper, M.D., Ph.D.

Title:	Robert B. Sweet Professor and Chair of Anesthesiology	Education:	Ph.D, Ch.E.: University of California Berkeley, 1973-75 M.D.: University of California Irvine, 1975-78
Clinical Activities:	Provide anesthesia for head and neck surgery. On-call responsibilities - Pediatric care and Labor and Delivery.	Research Interests:	Interested in oxygen monitoring, blood substitutes, and perioperative outcome studies.
Campus Address:	Chair, Department of Anesthesiology 1H247 UH / Box 0048	Office Phone:	(734) 936-4235
E-mail:	ktremper@umich.edu	Primary Activity:	Administration
		Secondary Activities:	Clinical Research, Clinical Practice, Teaching

Raymond S. Turner, M.D., Ph.D.

Title:	Assistant Professor, Department of Neurology Research Scientist, VAMC GRECC	Education:	M.D, Ph.D.: Emory University
Clinical Activities:	Cognitive disorders clinic; neuro degenerative disorders leading to dementia.	Research Interests:	Molecular mechanisms of Alzheimer's disease.
Campus Address:	Department of Neurology VAMC GRECC / Box 2399	Office Phone:	(734) 761-7686
E-mail:	raymondtd@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching, Administration , Clinical Research

Joseph P. Uberti, M.D., Ph.D.

Title:	Associate Professor of Internal Medicine/Hematology-Oncology	Education:	M.D, Ph.D.: Wayne State University
Clinical Activities:	Evaluate and treat patients undergone allogeneic autologous and unrelated bone marrow transplantation	Research Interests:	Investigate- new compound for the prevention of a GVH and toxicity after bone marrow transplantation
Campus Address:	Department of Internal Medicine B1-207 Cancer Center/ Box 0914	Office Phone:	(734) 936-8785
E-mail:	juberti@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice; Teaching; Administration

Stewart C. Wang, M.D., Ph.D.

Title:	Associate Professor Director of Research, Trauma Burn Center Director, University of Michigan Program for Injury Research and Education	Education:	M.D.: University of Chicago Ph.D.: University of Pittsburgh
--------	---	------------	--

Clinical Activities:	Trauma burn and emergency surgery. Elective general surgery.	Research Interests:	Innate immunity and immunological responses to injury. Mechanism of motor vehicular crash injury.
Campus Address:	Department of Surgery 1B401 UH / Box 0033	Office Phone:	(734) 936-9690
E-mail:	stewartw@umich.edu	Primary Activity:	Clinical Practice
		Secondary Activities:	Basic Research, Teaching

Lucy Waskell, M.D., Ph.D.

Title:	Professor of Anesthesiology	Education:	M.D.: Columbia University, New York Ph.D.: Molecular Biology, University of California, Berkeley
Clinical Activities:	I work 20% of my time in the operating room as a clinical anesthesiologist.	Research Interests:	The major research interest of the laboratory is understanding the biodegradation of drugs by humans. We work with native and mutant enzymes (cytochromes P450) in vitro and in patients.
Campus Address:	Department of Anesthesiology VAMC / Box 2399	Office Phone:	(734) 769-7100 ext 5858
E-mail:	waskell@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Research, Clinical Practice, Teaching

Stanley J. Watson, M.D., Ph.D.

Title:	Professor Co-Director of MHRI Associate Chair for Research	Education:	Ph.D.: University of Iowa M.D.: Tulane University Residency: Psychiatry, Stanford
Clinical Activities:	none currently	Research Interests:	My primary focus is molecular neuroscience, with an emphasis on the molecular composition of circuits in brain which control mood, endocrine, reward, affect and cognition.
Campus Address:	Department of Psychiatry 2058 MHRI / Box 0720	Office Phone:	(734) 763-3725
E-mail:	watsons@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Administration

John A. Williams, M.D., Ph.D.

Title:	Professor of Physiology and Internal Medicine Chair, Department of Physiology	Education:	M.D., Ph.D.: University of Washington
Clinical Activities:	n/a	Research Interests:	Regulation of the synthesis and secretion of pancreatic digestive enzymes and intracellular control mechanisms responsible for this regulation.
Campus Address:	Department of Physiology 7744 Med Sci II / Box 0622	Office Phone:	(734) 764-4376
E-mail:	jawillms@umich.edu	Primary Activity:	Basic Research

Secondary Activities: Teaching, Administration

Thomas E. Wilson, M.D., Ph.D.

Title:	Assistant Professor of Pathology	Education:	M.D., Ph.D.: Washington University School of Medicine, St. Louis
Clinical Activities:	Assistant Director, Molecular Diagnostics Laboratory.	Research Interests:	My laboratory studies basic mechanisms of DNA double strand break repair with an emphasis on determining the relationship of these repair processes to the origins of chromosomal translocations in cancer.
Campus Address:	Department of Pathology M4214 Med Sci I / Box 0602	Office Phone:	(734) 936-1887
E-mail:	wilsonte@umich.edu	Primary Activity:	Basic Research
		Secondary Activities:	Clinical Practice, Teaching

Jon K. Zubieta, M.D., Ph.D.

Title:	Assistant Professor Assistant Research Scientist	Education:	M.D.: University Basque Country, Spain Ph.D.: University Basque Country, Spain and Chapel Hill, NC Psychiatry: University of Michigan: Nuclear Medicine : Johns Hopkins University
Clinical Activities:	Treatment / Diagnosis of Mood Disorders.	Research Interests:	Functional Neuroimaging in mood disorders and substance abuse.
Campus Address:	Department of Psychiatry 1062 MHRI / Box 0720	Office Phone:	(734) 763-6843
E-mail:	zubieta@umich.edu	Primary Activity:	Clinical Research
		Secondary Activities:	Clinical Practice, Teaching
