Initial and date

_____ Enter Exception into M-Pathways Degree Audit System
_____ Make and distribute copies to: Student, Committee Chair, Advisor, AAC file
_____ File original form in student's OAP file

Guidelines
Petition to Substitute or Waive SNRE Master's Degree Requirement

1. There must be a very strong justification in order to gain approval, as the analytics, distribution and concentration course lists are already extensive and offer many options.

2. Lack of academic planning will not result in a routine approval.

3. Current analytics, distribution and concentration lists should be used. These lists will be updated annually in April.

4. Work experience does not qualify for meeting the analytics, distribution or concentration requirements

5. **Past degree coursework does not qualify for meeting the analytics, distribution or concentration requirements.**

6. The course for which approval is being requested must be:
   a) at least 3 credits
   b) graduate level
   c) comparable to courses on the existing lists

7. A copy of the syllabus of the course for which approval is being requested must be attached.

8. School-wide requirements may not be waived.
