**Environmental Justice Work Group
Detroit Listening Session Agenda**

Monday, August 7th, 2017

River Rouge High School, 1460 Coolidge Hwy, River Rouge, MI 48218

6:00 pm – 8:00 pm

Goal: For Work Group Members to hear directly from community members on environmental justice issues and how we can work together to improve our state around environmental justice

- I. Welcome, Theresa Landrum, Environmental Justice Work Group Member (6:00 pm)
- II. Introduction, Chris Kolb, Environmental Justice Work Group co-chair (6:05 pm)
Jerry Jennings, Environmental Justice Work Group Facilitator
- III. Facilitated table discussions (6:15 pm – 7:00 pm) – *see reverse side for discussion questions*
- IV. Tables report out to the larger group (7:00 pm – 7:45 pm)
- V. Work group members report out (7:45 pm – 7:55 pm)
- VI. Closing, Chris Kolb, Environmental Justice Work Group co-chair (7:55 pm – 8:00 pm)
- VII. Adjourn (8:00 pm)

We thank our reception co-sponsors the Community Outreach and Education Core of the Michigan Environmental Exposure and Disease (MLEEAD) Center U of M and the Sierra Club for their support.

The Environmental Justice Work Group will develop and provide recommendations to the Governor that improves environmental justice awareness and engagement in state and local agencies. The Work Group will examine policy and recommend for implementation environmental justice guidance, training, policy, and curriculum that further increases quality of life for all Michiganders.

1. **What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?** It is sad that in 48217, we do not have a fruit/veggie market. Kids need nutrition to increase positive vitamins to the brain and the body.
2. **What do you need from your local government to best serve environmental justice issues in your community?** I need the government to sit down with the residents and to not just listen to what are demands are but to deliver them to the community.
3. **What do you need from state government to best serve environmental justice issues in your community?** The state needs to provide funds to clean up the toxins in the air. They need to connect with Clean air act and solve the problems of the people.
4. **Ideally, what does your vision for environmental justice in Michigan look like to you?** I see clean air, no trucks on the road (Fort, Schaefer), no companies polluting this area and a whole lot of trees, plants, bushes, waterfalls (manmade), and happy residents and businesses.

We want to hear from you tonight. We ask that you help us to hear from many different voices from around the table. So taking turns will allow more voices to be heard. The table facilitator may invite many people to speak during the next 45 minutes.

email: kimberdi4life@gmail.com
Kim Dommeneil, 48217 resident

Defined in Executive Directive 2007-23, "Environmental justice" means the fair, non-discriminatory treatment and meaningful involvement of Michigan residents regarding the development, implementation, and enforcement of environmental laws, regulations, and policies by this state.

Environmental Justice Work Group Southeast Michigan Listening Session

Thank you for participating in the Governor's Environmental Justice Work Group Listening Session. During the listening session, please write any responses, ideas, or notes in the spaces below. We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

- pollution, highways, brownfields ~~areas~~ are over located in communities of color + low income areas. mercury, lead, SO₂ levels are very high in Detroit, Dearborn and River Rouge. → Lack of enforcement in ^{permit} ~~regulations~~ regulations (upcoming paper)
- climate change will exacerbate negative envi. issues we're seeing now. we need a plan for it.

2. *What do you need from your ^{State or} local government to best serve environmental justice issues in your community?*

3. What do you need from ^{local or} state government to best serve environmental justice issues in your community?

- ↑ fines for polluting industry, more regulation of pollutants] more accountability
 - lack of facilities:
 - ↳ health clinics
 - grocery stores
- ^{require} health impact assessment before projects like Gordie Howe bridge, other developments
 - if state does environmental impact study, require health impact study.
 - For example, what will be impact of putting jail near incinerator
- issue: truck routes ^{trucks are illegally} going in + idling in residential areas
 - viaducts get blocked by dirt from trucks
- clean water testing? water is discolored.
- regulation of pet + met coke + fugitive dust

4. Ideally, what does your vision for environmental justice in Michigan look like?

negative
issues
identified:

48217,
Detroit

- 48217 lives w/ pollution every day. Issues identified:
 - work crews begin as early as 5 (unclear whether construction or manufacturing)
 - haze, smog in summer time air + odor in the air
 - reports of ongoing respiratory issues
- "poor community" needs are ignored by businesses, who get permission from city to expand
- wild animals
- cancers, respiratory diseases
- lack of evacuation plan for ✓ explosions of plants/industry or other disaster
- tear down of school in 48217 has resulted in chemicals in the ground. Property is now overgrown
- "overall feeling of hopelessness, What can we do?"
- fine dust settles on cars, can't plant edible plants
- ⊗ - interested in buyouts from industry, ^(or other) home values ↓ due to industry and pollution. why did white areas near industry get buyouts?
- blight → drug trafficking
- speeding + idling of ~~trucks~~ trucks
- ⊗ lower taxes for residents living with pollution

Solutions
identified:

- renewable, alternative green energy sources
- equity in environmental impacts
- ~~be~~ clean air and water
- safer streets for bikers/peds/cars
- "we just want to breathe!"
- Detroit Freight Terminal:
 - Vernor + Dix, trucks idle
 - independent truck drivers may not know the rules about truck routes

Environmental Justice Work Group Southeast Michigan Listening Session

Thank you for participating in the Governor's Environmental Justice Work Group Listening Session. During the listening session, please write any responses, ideas, or notes in the spaces below. We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

- Resources: C.I.P. for SW.
- Wayne State Univ Studies
 - ↳ using studies to leverage grant dollars can be used that affect positively community & residents life.
- ^{III} Cumulative Health Impact Assessment (CPIAs, etc) over generations... fetal development (Neurotoxins)
- Connection b/w multimillion industry & community improvement (blight)
- Health Impact Assessment ← cumulative impact
- Edu. / attainment & childhood development
- MDEQ funding increase to historic levels
 - Industrial tax to improve community ← capital improvement
- D.E.R.A.
- VW Mitigation
 - Dumping
- Pet Coke / Bulk Storage Fighting Dust
- Adequate evacuation plan in emergencies (20 years in making)
- Flooding roads, basements, water / sewer infrastructure

2. What do you need from your (local government) to best serve environmental justice issues in your community?

- Capital Improvement Plan through industrial taxation
1% for community improvements/resources
- air filtration (Swag TIF)
- Rulemaking Process for regulations for MDEQ
(removing air toxics rules - already done -
fast track permitting - no time for hearings)
- Public Health Action Plan - Air Quality etc.
- Petition process for comments re. EJ. concerns
- EJ point person in MDEQ - maybe also Office of Sustainability
- Air Filtration in ea. home
- Community Communication - e.g.
- Rezoning process for industry
- EJ Community designation that comes w/
a suite of resources
- \$ from permit violation earmarked to locality
w/ local voice on how funds are allocated
- Industrial best practices & processes (metrics)
- Public

3. What do you need from state government to best serve environmental justice issues in your community?

• Public Participation Dashboard

4. Ideally, what does your vision for environmental justice in Michigan look like?

- Not allow pollutive companies in dense neighborhoods where health is affected
- Envir. Justice Health Camps - multi university partners to allocate resources thru. new taxation.
 - more community advisory panels
 - concentrated disinvestment
- Focus on renewable power generation
"Green for All" - Solar coops
- No trade off between jobs/economy & public health/environment
- Lower cancer rates
- Create a ~~public~~ environmental advocacy movement

Environmental Justice Work Group Southeast Michigan Listening Session

Thank you for participating in the Governor's Environmental Justice Work Group Listening Session. During the listening session, please write any responses, ideas, or notes in the spaces below. We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

- ① Environmental fines should be returned to impacted area
- ② Erase EJ boundaries ^{all communities affected are one}
- ③ form a coalition for areas impacted by the same polluters
- ④ Educate residents around EJ issues & impacts
- ⑤ More attention on health issues around water shut offs. Address affordability
- ⑥ Correct aging infrastructure
- ⑦ Require industries to use cleaner processes

2. *What do you need from your local government to best serve environmental justice issues in your community?*

① zoning

3. *What do you need from state government to best serve environmental justice issues in your community?*

4. Ideally, what does your vision for environmental justice in Michigan look like?

① Comprehensive EJ policy
that recognizes injustices

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

4 QUESTIONS

TELL GOV - FOCUS ON PEOPLE, NOT \$

48217 - MARIETTA + OTHERS

COMPENSATION FROM POLLUTORS

INFO BASED MONITORING - NEEDS MORE MONITORING

PROPERTY VALUES ↓

POLLUTORS KNOW - ADMIT IT.

COMMUNITIES HAVE A SAY IN ABATEMENTS

MARGINALIZED?

ODORS -

AIRPORT

DUMP - AIR, WATER, RENEWABLE ENERGY

AIR POLLUTION AFFECTS ENTIRE ENVIRONMENT

SOLUTIONS COST MONEY

HOW IDENTIFY POLLUTANTS TO SOLVE PROBLEM

POLLUTION TRAVELS

POLLUTION BURSTS AT CERTAIN TIMES

ARE LAWS IN PLACE OR DO WE NEED NEW LAWS

SNYDER ALLOWED POLLUTION. POLITICS ENABLE

POLLUTORS:

LOBBYISTS.

MARIETTA - BURSTS AT NIGHT, ROAD OR POISON ODORS

2. *What do you need from your local government to best serve environmental justice issues in your community?*

3. ***What do you need from state government to best serve environmental justice issues in your community?***

4. Ideally, what does your vision for environmental justice in Michigan look like?

SITUATION GETTING WORSE SINCE MARATHON EXPANDED.
GARDENS + TREES WON'T GROW.

EDISON IS LEAVING.

MARATHON IS BEING A FRIENDLY NEIGHBOR BUT
STILL POLLUTE.

PEOPLE CAN'T LEAVE - PROPERTY VALUES TANKED.
DTE EXPLOSION - 2016 } EVACUATIONS

MARATHON

SOME COMMUNITIES WERE COMPENSATED BUT
CLOSE NEIGHBORHOODS WEREN'T.
SPECIFIC INCIDENTS BUT ALSO DAILY EMISSIONS,
FLAMES BURN TOXIC GASES. IF FLAMES GO
OUT, EXPLOSION.

WHO SHOULD BE RESPONSIBLE.

LOCAL
COUNTY
STATE

48217 - ANOTHER FLINT
HEALTH STATUS.

NO MORE PERMITS.

VALUES - \$ OR HEALTH? VALID CHOICE

48217 60% SENIORS - CAN'T MOVE
WHO DO YOU CALL. POLITICIANS AREN'T RESPONSIVE.

GENTRIFICATION

Ideas on Environmental Justice from someone unable to attend

There should be a deposit for bottled water bottles

The State of Michigan should promote recycling in each city

No LULU's (locally undesirable land uses) in populated areas

We need to address global warming

Close line #5 (pipeline under Straits of Mackinac)

Nobody should be refining the Alberta tar sands. It produces pet coke.

No Canadian waste

No fracking

In addition from someone else

Nuclear power is not the answer. We need alternative energy

Ideas on Environmental Justice from someone unable to attend

There should be a deposit for bottled water bottles

The State of Michigan should promote recycling in each city

No LULU's (locally undesirable land uses) in populated areas

We need to address global warming

Close line #5 (pipeline under Straits of Mackinac)

Nobody should be refining the Alberta tar sands. It produces pet coke.

No Canadian waste

No fracking

In addition from someone else

Nuclear power is not the answer. We need alternative energy *including wind*

*Companies should not get permission to increase pollution
Companies bully on contaminated sites - who cleans
Communities should come before companies*

The Environmental Justice Work Group will develop and provide recommendations to the Governor that improves environmental justice awareness and engagement in state and local agencies. The Work Group will examine policy and recommend for implementation environmental justice guidance, training, policy, and curriculum that further increases quality of life for all Michiganders.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor? *FORCE THE COMPANY THAT ARE POLLUTING TO STOP POLLUTING OUR ENVIRONMENT. I THINK ~~THE~~ AIR POLLUTION IS THE MAJOR PROBLEM, BECAUSE AIR POLLUTION FALLS ON EVERYTHING.*
2. What do you need from your local government to best serve environmental justice issues in your community? *ENFORCE THE LAWS THAT ARE ON THE BOOKS*
3. What do you need from state government to best serve environmental justice issues in your community? *MAKE SURE THEIR ^{IS} FINANCE AVAILABLE FOR CLEANING THE AIR AND WATER.*
4. Ideally, what does your vision for environmental justice in Michigan look like to you? *CLEAN AIR TO BREATHE IN THIS ENVIRONMENT AND CLEAN DRINKING WATER.*

We want to hear from you tonight. We ask that you help us to hear from many different voices from around the table. So taking turns will allow more voices to be heard. The table facilitator may invite many people to speak during the next 45 minutes. *I OWN A HOUSE IN DETROIT AND IN MELVINDALE BOTH WERE IN 1958. ~~AT~~ THE ACID RAIN DESTROY THE MOTOR ~~ON~~ BETWEEN THE BICK, AND THE*

Defined in Executive Directive 2007-23, "Environmental justice" means the fair, non-discriminatory treatment and meaningful involvement of Michigan residents regarding the development, implementation, and enforcement of environmental laws, regulations, and policies by this state. *ADASTING TO RUST OUT ON THE HOUSE IN MELVINDALE.*

① Question one extra comments

A fee should be applied to companies that use trucks riding the roads.

- Hire a third party monitor - train a resident ^{in the area} on how to read the computer information from company instead of someone who works for the company. Company can pay state that the state will hire a company randomly.
- Infrastructure needs to be improved

From: Kimson Johnson <johnsonk@ewashtenaw.org>
To: l-oced_cab <l-oced_cab@listserver.ewashtenaw.org>
Subject: Governor's Environmental Justice Work Group
Date: Mon, Jul 31, 2017 9:04 AM

Good Morning CAB members,

Please see information about an upcoming event on environmental justice below. Also, follow up information that was requested during last week's meeting will be sent this week.

Governor's Environmental Justice Work Group Listening Session is August 7 in Southeast Michigan

Members of the Governor's Environmental Justice Work Group are interested in hearing directly from community members about how we can work together to improve environmental justice in our state and local communities.. In Southeast Michigan, the listening session is scheduled for Monday, August 7, 2017 from 6-8 p.m. (reception at 5:30 p.m.) at River Rouge High School, 1460 Coolidge Highway, River Rouge, MI 48128). Input will help shape a set of recommendations the work group will send to the governor. SEMCOG Executive Director Kathleen Lomako is a member of this work group. [More information.](#)

Thanks,

Kimson Johnson

Environmental Justice Work Group Southeast Michigan Listening Session

Thank you for participating in the Governor's Environmental Justice Work Group Listening Session. During the listening session, please write any responses, ideas, or notes in the spaces below. We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

NO
Plans
evacuation
in case
of
emergency

- Give me information to take back to my Community about the Long-term environmental damaged over the years and affects of that to the Community and how to help them.
- Polution > Cancer concerns > don't change the zoning from residential to Commercial.
- Why don't we have grocery Stores - area Not thriving anymore → Need to advocate for Commercial Stores
- For the companies, entities concerning polution/contamination are enforced by the Rules are already in place - Police should enforce any violation of polution i.e. trucks with contaminants, inflammable waste products
- Universal way to report violations of polution. Make sure vehicles have Clear Tags to identify so they can be reported.

2. What do you need from your local government to best serve environmental justice issues in your community?

- Need a Citizen Environmental Committee in area...
- Background checks on politicians. Needs to be more. ~~then~~ make sure laws are enforced then, open contact with the people.
- Tell me if this is the reason we don't retail in the area.
Gov't organizations are being cut in the federal budget
- Need to lobby for more money for committees that serve the community for environmental concerns
- More retail - Grocery store, access to fresh vegetables and fruit, Pharmacy - medication
- More transparency - more talk on environmental issues and actions.

3. What do you need from state government to best serve environmental justice issues in your community?

- User friendly web site. Easier to find projects
- Don't allow Corp. to violate the law → enforce the law and stop incentives until they have corrected the violations

4. Ideally, what does your vision for environmental justice in Michigan look like?

empowerment of communities - because of the

environmental Justice Support - Increase

IN membership - a direct affect up to the
Federal gov't

The Environmental Justice Work Group will develop and provide recommendations to the Governor that improves environmental justice awareness and engagement in state and local agencies. The Work Group will examine policy and recommend for implementation environmental justice guidance, training, policy, and curriculum that further increases quality of life for all Michiganders.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

improve overall health recommend health impact study with
recommend lowering emission standard. No variances
from suffering

2. What do you need from your local government to best serve environmental justice issues in your community?

Green suffering / soil remediation health impact study
awareness of pollutants

3. What do you need from state government to best serve environmental justice issues in your community?

grant writing
specialized class. Local clinics

4. Ideally, what does your vision for environmental justice in Michigan look like to you?

We want to hear from you tonight. We ask that you help us to hear from many different voices from around the table. So taking turns will allow more voices to be heard. The table facilitator may invite many people to speak during the next 45 minutes.

Defined in Executive Directive 2007-23, "Environmental justice" means the fair, non-discriminatory treatment and meaningful involvement of Michigan residents regarding the development, implementation, and enforcement of environmental laws, regulations, and policies by this state.

We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

IMPROVE the health AND deterioration of the community

RECOMMENDATION, HEALTH IMPACT BE DONE FOR THE COMMUNITY, IN 6 MONTHS, AND WHAT IS THE RESOLVES OF THE SOLUTIONS, Need Action

~~State~~ Recommendation: Health Impact Study & timeline for ~~corrective~~ action
 — Why a Study — Because of Unknown Chemicals
 — Measuring Method for Study that includes — a State implemented Health ~~Study~~ Impact Study.
 → a look at Cumulative Impact, e.g. toxic chemicals
 → ~~Recommend~~ lower emission standards.
 → If ~~Company~~ is in violation, no permits will be granted or ~~renewed~~ renewed.
 → green Buffering;

We pay taxes too, so we need to be served.

on city land
 Long

2. What do you need from your local government to best serve environmental justice issues in your community?

- Implement local ordinances regarding ~~pollution~~ ^{Polluter Violators}.
- a City (Cluster) Study;
 - trace the source for bring awareness of the ~~Polluter~~ polluters & Make it public.
- City should have their own guidelines regarding locality of various polluters for ~~pollution~~ ^{At least a} certain
- Open line / Partnership with ^{the} State, a Committee ~~composed~~ ^{composed} of Community Residents Seeking input.
- City / local ~~agencies~~ ^{agencies} expand ^{Notice of} ~~Notification~~ ^{Notification} of potential polluters coming into the Community.
- Emergency responders should be clearly identified for ~~adjoining~~ ^{adjoining} surrounding communities.
- ~~Implement~~ ^{Implement} specific evacuation plans for each Community.
- Mock evacuations / training for residents - Annually.
& Emergency responders.
- Household monitors

3. What do you need from state government to best serve environmental justice issues in your community?

— access to grant writers & funds

→ put the people first NOT Corporations

→ Homeland Security should ~~work~~ work to protect the residents/communities; NOT Corporations

→ MDEQ should openly ~~educate~~ educate and provide resources to impacted communities.

^{we need} ~~the~~ health care providers & physicians who have expertise ~~in~~ in illnesses related to environmental ~~conditions~~ conditions.

→ We need free clinics for ^{communities} ~~impacted~~ impacted and/or ~~underdeveloped~~ ^{most polluted} ~~as~~ as

→ Programs to ~~mitigate~~ Mitigate the effects of environmental ~~conditions~~ ^{impacted} impacted on Communities.

→ The EPA is being reduced - then State needs to fund ~~all of the~~ ^{all of the} ~~programs that the~~ ^{the programs that the} EPA is ending. e.g. Air pollution, Water & Soil ^{& corporations}

→ Implement renewal ~~energy~~ energy Processes & Initiatives

→ a State Mandated Recycling Program.

→ a State Shared Initiative ~~to~~ to what Programs & Charges ~~that~~ ^{that} support residents

4. Ideally, what does your vision for environmental justice in Michigan look like?

- ~~Hard~~ remediation
- Clean up existing pollution
- Put Citizens first, e.g. ~~the~~
No biased impact towards low income,
and ~~for~~ ~~the~~ minority community
- 'Ideally ~~what~~ would like to see regulatory
agencies working with & towards communities; NOT
against
- funding state & federal environmental
programs, to improve the quality of life ~~for~~
~~residents~~ residents & citizens.
- 'a positive change ~~to~~
- ~~the~~ Education of MDEQ & other Regulatory agencies
on how to work & communicate with citizens
- ~~It~~ That there be a ~~human~~ human side/
Or component to look at ~~all~~ ~~the~~ ~~all~~ citizens &
their quality of life.
- A Corporation should give back to the
communities they impact.

W. Heath-John

3. What do you need from state government to best serve environmental justice issues in your community?

⊗ Permit hearings allow people to get heard, but there is no feedback

⊗ Accountability to the People for "the plan" ~~on developments of~~

⊗ Strong sense of People vs. Gov/Industry
- what can be done to change this perception.

⊗ A Requirement for information to residents "Far ahead" of any action

⊗ Funding transparency of projects

⊗ Informing people of "the process" / "How things work"
so they can understand how ~~the~~ people fit into the process

⊗ When Government needs ~~the~~ your vote they find you. How come they have a hard time communicating other items

4. Ideally, what does your vision for environmental justice in Michigan look like?

* Marathon Pollution reduced, controlled and responsive to residents. Air Quality needs to be controlled. People use words like "fight" instead of "conversation" or "discussion".

- ⊗ Pet Coke on water-front
- ⊗ Air Pollution
- ⊗ They listen but continue to expand

* Health Concerns got people involved

- Asthma, Cancer, Emphysema
- People should have the right to live where they want

* Let US know what the future is

- 50 yrs ago they told residents it was going to be light industrial, Now it's heavy industry

* Good measurements of Air Quality Changes & Monitoring

Environmental Justice Work Group Southeast Michigan Listening Session

Thank you for participating in the Governor's Environmental Justice Work Group Listening Session. During the listening session, please write any responses, ideas, or notes in the spaces below. We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

① Consider Impacts to Schools. They are disappearing in area where there are still Residents

② Stores, clinics and other resources are disappearing in these affected communities. Everything is moving away.

③ Master Planning, Communication is not happening.

④ Communication happens after decisions are made

⑤ Diverse types of Communication

- ⑥ Print, meetings, on-line, Bilingual, Text
- ⑦ How do you get people to the meetings
- ⑧ People in neighborhoods have given up
- ⑨ Messaging at places where people go
Local stores, laundromats, churches, etc...

telephone Flyers Social media

2. What do you need from your local government to best serve environmental justice issues in your community?

- ⊗ An Actual Plan for neighborhoods
- ⊗ An Actual ES Plan for communities
- ⊗ A Place for Evacuation for Businesses and Residents
- ⊗ Clinic accessibility + Food Accessibility
→ grocery stores
- ⊗ ~~the~~ Zoning Plans are a mess
- ⊗ Long-term Planning so people can make good decisions about their future. People feel they are told "last-minute" and have no time for planning
- ⊗ No Planning between Cities + Non-profits
~~Continued on page~~
to develop a better central Plan
- ⊗ Local government does not communicate -
- ⊗ Public Safety planning needs to be a part of the ES plans for the communities

Detroit Energy Talking Points

PROBLEM

Dirty energy is harming our health

- Coal plant pollution is a major contributor to asthma, emphysema, bronchitis and can aggravate existing heart disease
- Coal plant CO2 pollution increases climate change, resulting in more extreme weather and more hot days that impact the health of children and the elderly in particular.
- A large portion of Wayne county has been designated out of attainment by the Environmental Protection Agency due to high levels of SO2 pollution from 2 coal plants and other industries
- The Detroit Incinerator has accumulated over 40 air quality violations for emissions of carbon monoxide, sulfur dioxide, particulate matter and excess odor.

<http://www.ecocenter.org/detroit-incinerator-could-face-lawsuit-over-clean-air-act-violations>

Energy costs are burdensome

- The high cost of electricity in SE Michigan creates a heavy financial burden for low income households

"Lifting the High Energy Burden in America's Largest Cities: How Energy Efficiency can Improve Low Income and Underserved Communities" Ariel Dreihobl and Lauren Ross, April 2016

- Many people in Detroit area cannot afford the high cost of electricity and face shut-offs

SOLUTIONS

Clean Energy is healthier

- Transitioning from coal and incineration to clean energy will reduce air pollution, making our neighborhoods healthier

Clean Energy can save customers money

- DTE should improve and expand its energy efficiency programs for low income customers to help residents save money on energy use
- Detroit City and the State of MI should support low income and multi-family unit energy efficiency measures to reduce residents' energy bills and prevent energy waste.
- In Michigan, wind energy is cheaper than coal and gas

Clean Energy will produce new jobs

- Energy efficiency measures reduce energy needed in households and can provide good jobs; let's make sure they go to local residents
- Solar energy can provide jobs in our neighborhoods
- The city of Detroit should work with DTE on programs for local residents to be trained to install energy efficiency measures and to build out local solar energy
- The price of solar panels has dropped by 80 percent since 2008, with the price of rooftop solar dropping to 36 cents per watt by 2017. ([PV Technology and Cost Outlook, 2013-2017](#))

Environmental Justice Work Group Southeast Michigan Listening Session

Thank you for participating in the Governor's Environmental Justice Work Group Listening Session. During the listening session, please write any responses, ideas, or notes in the spaces below. We are looking for short notes summarizing the message the guest is sharing. The notes you take are not meant to be a detailed capturing of the entire information shared by the guest.

Please turn these handouts in to the facilitator at the end of the session so that the Work Group may be informed of your suggestions.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

^{or from}
A governing policy recommended by the state of California.
Mi. Public Health Commission recommendations about health
issues before issuing permits to industries which may
affect the public's health.

Health effects: asthma, cancer, lungs, itchy eyes,
Transportation: Bus routes ~~from~~ ^{for non-drivers} itchy throat,
Air quality issues. coughing.

2. What do you need from your local government to best serve environmental justice issues in your community?

Be aware and more knowledgeable about community concerns and issues which should be addressed by those whom we have elected to public office.

Not inflicting more harm that's already done.
For example: An attempt to change ~~an~~ ^{a block} area in the community to M4 (Intensive industrial) in a residential / business area.

The Environmental Justice Work Group will develop and provide recommendations to the Governor that improves environmental justice awareness and engagement in state and local agencies. The Work Group will examine policy and recommend for implementation environmental justice guidance, training, policy, and curriculum that further increases quality of life for all Michiganders.

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

HEALTH IN ALL ^{POICIES} ~~PROJECTS~~ . CUMULATIVE EFFECTS
WHERE OR WHAT ARE THE HEALTH EFFECTS IN A GIVEN AREA. WHO WAS THERE FIRST. WHAT IS
A COMPANY'S TRACK RECORD. WHAT FACTORS ARE CONSIDERED IN PERMITTING TRANSPORTATION
TO INCREASE PARTICIPATION. AIR QUALITY ISSUES.

2. What do you need from your local government to best serve environmental justice issues in your community?

BE MORE KNOWLEDGEABLE OF THE ISSUES. LOCAL GOV'T
NEEDS MORE RESOURCES. MANDATE FROM THE STATE FOR LOCAL GOV'T. COMMUNITY DOESN'T HAVE
ENOUGH POWER TO GET THESE ISSUES ADDRESSED.

3. What do you need from state government to best serve environmental justice issues in your community?

ADVOCATE AT LARGE FOR THE PEOPLE. MAKE THE DEQ
A CONSUMER ORIENTED DEPARTMENT. NOT IF PERMIT MEETS A CERTAIN CRITERIA BUT HOW
WILL THE PERMIT AFFECT THE PEOPLE IN THE AREA. CHANGE THE WAY THE MDEQ OPERATES.
CLEAR POINT OF CONTACT → OMBUDSMAN TO ADDRESS PEOPLE'S ISSUES

4. Ideally, what does your vision for environmental justice in Michigan look like to you?

DON'T REMOVE REGULATIONS. INDUSTRIES ACT AS A PARTNER. MORE INFORMATION
HEALTH IN ALL POLICIES COMMUNITY HEALTH IMPACT ASSESSMENTS. COMMUNITY BENEFITS
SPECIFIC TO THE LOCAL COMMUNITY.

We want to hear from you tonight. We ask that you help us to hear from many different voices from around the table. So taking turns will allow more voices to be heard. The table facilitator may invite many people to speak during the next 45 minutes.

Defined in Executive Directive 2007-23, "Environmental justice" means the fair, non-discriminatory treatment and meaningful involvement of Michigan residents regarding the development, implementation, and enforcement of environmental laws, regulations, and policies by this state.

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

BRIAN CALLEY
LT. GOVERNOR

1. What would you like the Environmental Justice Work Group to consider in our recommendations to the Governor?

In 48217

- Pollution - water, soil and air → monitors are not sufficient as a reporting mechanism.
- MDEQ hearings are a mere formality.
- Lack of walkability
- community is isolated
- ^{loss of} Dead seagulls on jefferson on the bridge by the treatment plants -
- the authorities don't take ownership for explosions and fires.
- need for community advocates who can do home visits to ensure laws are being implemented and environmental justice is ensured
- trucks
- coding enforcement officer - ~~per~~ permanent employees that doesn't change w/ govts
- independent consumers commission that will have oversight on environmental → paid for by the industry
Es: National Assn of state utility consumer advocates

Utility Consumer
participation board
1¢ charge on bill

2. What do you need from your local government to best serve environmental justice issues in your community?

- better roads
- more clean up - blight, debris and trash
- lower speed limit on Rt close to the schools
- enforcing the laws that exist - penalize when it's not enforced.
- take care of the gophers and other animals that have surfaced due to blight

3. What do you need from state government to best serve environmental justice issues in your community?

- Community Advocates that can know no injustices occur (eg: buy out, air quality assessment)
- buy out programs need to be transparent
 - ↳ a permanent department - Michigan office of Environmental Justice
 - ↳ focus on health inequities
 - ↳

4. Ideally, what does your vision for environmental justice in Michigan look like?

A. SUCH
Facilitator.
