To Whom It May Concern:

The Law School Student Senate (LSSS) is committed to the creation and promotion of an inclusive environment at Michigan Law School and the University of Michigan. To this end, LSSS supports the ability of each and every student to be recognized in age, ethnic, gender, racial, sex, sexual orientation, social, and other categories with which they identify. Whether this means the creation of a Middle Eastern and North African (ME/NA) racial category as will be implemented in the upcoming U.S. Census or creating other categories to respect the identities of all, LSSS supports efforts to be inclusive, respectful, and supportive to all members of our student body.

The Law School Student Senate officially supports all efforts to implement the creation of the ME/NA racial category on university documents.

Sincerely,
2017–2018 Law School Student Senate
