May 2008

4088 con

Dear Representative Kathy Bug

Please support comprehensive immigration reform legislation that respects human dignity, addresses the root causes of migration, protects the rights of workers and provides a path to citizenship for immigrants who have been in this country for years. An enforcement-only policy fails to meet these criteria.

I also urge you to oppose H.R. 4088, the SAVE Act. This punitive bill does not respond to any of the concerns listed above and should be soundly rejected. Thank you for your consideration.

M. Patricia Peters RSM
