Dear Representative Knollenberg,

My name is Brendan Pickard. I am a student at North Farmington High School. I am writing to encourage you to keep sponsoring the Road Commission and SMART type operations. Road construction can be annoying, but it fixes roadways and makes traveling smoother. The Road Commission helps to divert traffic around traffic and change traffic light timers. This makes traveling easier, more efficient, and less aggravating. With SMART and other mass transit systems, the traveling to and from places is easier if you don't have a vehicle or can't afford gas anymore. These ways of transport use less oil and help make the Earth greener. Thanks for helping companies, who will make a difference in our society.

Sincerely,

Brendan Pickard
