Farmington Hills, MI 48331

Dear Representative Knollenberg,

My name is Hayley Baker, and I am a student at North Farmington High school. I'm writing to you about the issue of raising gas prices. I've heard all the *talk* about alternative fuel, but I haven't seen anything around. When will Michigan open up any? If we start to use it, will it be the same price? This issue is important to me because a lot of families are going in debt because they cant afford the price of gas. I hope to see something around soon! ☺ Keep up your good work!

Sincerely,

Hayley Baker
