Dear Representative Knollenberg,

My name is Anna Pokriefka and I am a freshman at North Farmington High School. I am writing to you about your tax relief policy. Although you say that you support tax breaks, who are these tax breaks really for? I believe that tax breaks and relief's for lower income families and small businesses is not enough. In addition to the tax reliefs, I believe that higher income families should have a higher tax. You say that your tax reliefs provide more jobs, but I don't that that the right people are paying for these jobs. I would like for you to think about continuing the tax relief's for lower income families, but raising them for people making more money.

Sincerely,

Anna Pokriefka

Anna Pokriefka
