Dear Representative: Knollenberg,

I am shocked and deeply disturbed at the lack of oversight of the BATFE, an agency that more than once has had to be slapped down by Congress for its total disregard for the rights of law-abiding citizens.

I urge you to cosponsor and support Rep. Gingrey's Fairness in Firearms Testing (HR 1791) that will go a long way to curbing BATFE abuse of gun owners.

I also ask that you demand the appropriate oversight committee convene a hearing to look into this agency's Gestapo-like methods of harassment, entrapment and other lawless activities intended to force small gun shops and manufacturers out of business.

Sincerely,

Paul Warfield

P.S. WE ARE WAITING ON YOU TO ACT ON OUR BEHALF ON THIS IMPORTANT ISSUE! THANKS,
