Dear Representative: ~~H.R.~~ H.C.R. 691

I'm writing to urge your strong support for immediate House passage of the "Second Amendment Enforcement Act," with no anti-gun Amendments.

On June 26th, the United States Supreme Court ruled that Washington, D.C.'s ban on handgun ownership and self-defense is *unconstitutional*, and that the Second Amendment means exactly what it says -- that the Right to Keep and Bear Arms is an *individual* right. Yet the D.C. City Council defiantly refuses to dismantle its gun-ban ordinance.

I urge you to help enact this legislation and ensure that law-abiding citizens of Washington, D.C. will get the full benefits and rights they deserve under this ruling. This issue will be extremely important to me on November 4th, 2008 and in future elections.

Sincerely, _____
