12/19/07

To Representative Joe Knollenberg:

Please support the Title X Abortion Provider Prohibition Act (H.R. 4133) that will stop the federal government from allowing taxpayer money to fund organizations that perform abortions.

I urge you to help prohibit family-planning grants being awarded to any entity that performs abortions, because while current law forbids agencies from using tax dollars to perform abortions, Title X funds inevitably underwrite abortions when used by clinics to offset operational expenses, thus freeing up dollars toward the killing of pre-born children.

The federal government must stop subsidizing such outlaw organizations as Planned Parenthood, which hides the statutory rape of underage girls by adult men. I am calling on you to do what's right! Sign on as a co-sponsor, if you haven't already, then fully support and vote for H.R. 4133. I'm counting on your help and will be watching.

(Signed) Frances L. Smeal
