May 4, 2008

The Honorable Joe Knollenberg
United States House of Representatives
2349 Rayburn House Office Building
Washington, D.C. 20515-2209

Dear Representative Knollenberg:

I am a boy scout from Troop 1037 in your district. I am writing to you as part of my Citizenship in the Nation merit badge. I wanted to thank you personally for being an advocate for the rights of unborn children.

I looked up your votes over the last several years and see that you always try to protect human life. I know how precious life is and how little some people care. Our country's founding fathers said that everyone is entitled to life, liberty and the pursuit of happiness. I think they would be saddened that so many people say that unborn children are not important. It is our job to protect them so they can someday enjoy all the other wonderful rights we have in the United States.

I also wanted to let you know that I thought it was really special that the scouts from my troop who were awarded their Eagle Scout badges today received a flag from you. Thank you for being so generous to them. I am looking forward to being an Eagle Scout someday.

If you have a chance to respond to me, I would appreciate it. May God bless all that you do and thank you again for your incredible support of the unborn.

Sincerely,

Austin D. Mitchell
