Dear Congressman Knollenberg,

I am a WW2 Naval veteran, that served on LST 266 during the Normandy Campaign, I along with Hundreds of LST men or amphibious ship mates are Requesting that there Senators support a new Bill H. RES 1316.

Mr Peter Leasca has introduced this bill to Congressman James McGovern, who has been, from the beginning a supporter to all Veterans. He was very Instrumental along with many many others in acquiring a WW2 Naval ship to Return to the United States from Greece . This ship is Home ported in Evansville, Ind LST 325 (Landing Ship Tank)

Please Congresman Knollenberg, please look into this matter and review the Bill H Res 1316.

Thank you

Sincerely

Edward J Dyar
