Congressman David R. Obey
2314 Rayburn Office
Washington, DC 20515-4907

5/7/2008

Dear Sir,

I am running out of good Democrat's to write for help, you have become my last hope to keep me in the fold, I am talking about someone taking a strong stand against this dysfunctional government that is leading us to total doom.

There are so many acts that our President has taken that seems to be leading us over the edge, the crazy Iraq war, the outlandish deficit, the poor economy, the oil debacle, the lack of any direction in our Foreign policy, I could go on forever, I am sure you get the idea.

But now is the time to take a firm stand with the House Appropriations bill to cover the cost of this War. This bill must include extension of unemployment insurance as well as G .I. Education benefits. This seems like the last straw, when we can not even take care of these young heroes who are fighting a lost battle over a mistake we made, at least we should be there for them when they come home.

If need be, the Democratic 's should start letting the public know that the Bush Administration is the cause of most of our tribulations with his lack of working with the Congress and heeding other ideas as solutions to our World problems.

Please let me know what direction the Committee is going to take and how hard will the House fight for this action.

Thank you for your quick and kind consideration.
