LS ind. V

Dear Rep. Knollenberg,

I am representing the Pancreatic Cancer Action Network who are starting a new initative for additional research funding. My brother - age 53 - was diagnosed Oct 2007 and given 4-6 months to live.

Please note by the enclosed material, how low the funding is for pancreatic cancer where only 5% of patients live 5 years and 75% die the first year after diagnosis.

We need your help.

Please sign and support the Eshoo, Platts & Cummings letter for increased funding.

I appreciate your support.
