Dear Representative Knollenberg,

Hi. My name is Max Kendler and I am currently a 9th grader at North Farmington High School. I am writing you this letter to inform you on an issue that I feel is wrong with the school lunch hour. I think strongly that students should be allotted at least a 45 minute lunch time. I think that a lot of kids believe that they are overwhelmed with new teachings and homework. Kids also are known to be fed less nutritional foods for the less amount of time they have. Having non-nutritional food for the whole school year can take a disgusting toll on the body. I think that a mandatory 45 minute long lunch break would help everyone relax and quickly unwind as much stress as kids can.

Sincerely,

Max Kendler
