*UNCON

Dear Representative,

The time has come to send the United Nations and our so-called allies in the European Union (EU) and elsewhere a clear message that the days of U.S. appeasement are over.

The United Nations was hostile to American interests long before the Iraq war. Their demands to take more control of our war on terror -- and their long term goal to absorb us, first into a "*North American Union*" and later into a "*global union*" are the last straws.

Therefore, I urge you to work with the President to officially and permanently withdraw the United States from the U.N.

Respectfully: Gerard J. Cottrell

Date: June 4, 2008
