# Official Citizen Petition

## Petition to Congressman HR2905
## Joseph Knollenberg

As one of your constituents, I urge you to support Rep. Mike Pence's bill, H.R. 2905, which will bar the Federal Communications Commission from reinstating the "Fairness Doctrine." This doctrine was repealed for good reason in 1985, and attempts to reinstate it now amount to nothing more than an attempt to censor Christian and conservative talk radio and television. Let the market in ideas work! Americans have greater choice than ever today in communications and media; we don't need to bring back a discredited regulation from the past!

Sincerely,

Eileen Gage
