Dear Representative Knollenberg,

Enclosed is a copy of a letter I sent to Representative Rogers. I wish you and the other members of Congress would eliminate all earmarks from spending bills and use legitimate procedures to allocate funds. Congress needs to act fiscally responsible, if we are to resolve our current budget crisis. Deficit spending and borrowing large sums of money from other countries is not in our best interest. **Please work with Mike Rogers and other members of Congress to eliminate all unnecessary spending.**

Thank you!
Sincerely,

Beverly Thomas

Dear Representative Rogers,

I read the article in the Oakland Press that stated your quote, "Every earmark ought to be openly submitted and subject to debate". **I would like to commend you for acting responsibly. Your courage to do what is in the best interest of our country is extraordinary.** I wish you would try to convince the other members of Congress to act fiscally responsible. **All earmarks should be eliminated.**

Thank you for putting the welfare of our country before your self-interest!

Sincerely,

Beverly Thomas
