ONE UNIVERSITY

***Mission**: The One University Coalition (1U) aims to create a University of Michigan which embodies the charge of a truly public institution: providing access for diverse communities, ensuring accountability for its various stakeholders, and furthering equity and empowerment for all the people of Michigan.*

- 1U put together a report that identifies barriers to student success, proposes detailed solutions to address them, and estimates the cost of these solutions. The full report can be found here: tinyurl.com/OneUProposal (it's a great read!)

- Right now, we have two primary asks of the University:
    - 1. Reverse the harmful budget cuts that have already happened on Flint and Dearborn campuses as a response to the COVID-19 pandemic.
        - These cuts are unnecessary, and they are detrimental to students, instructors, and staff
        - Instead, the University should be making sure that there is an adequate process to **move funds** across the three campuses, **use the endowment** when necessary, and **prioritize student well-being**.
    - 2. Implement the four major demands laid out in the report:
        - Expand the Go Blue Guarantee to Flint and Dearborn
        - Improve Diversity, Equity and Inclusion practices in Flint and Dearborn
        - Expanded Scholarships for study abroad in Flint and Dearborn
        - Provide on-campus medical and legal services in Flint and Dearborn

- Regents update
    - In March, the Regents formed a committee to assess the needs of Flint and Dearborn, though this committee hasn't yet met
    - The Regents will be voting on a budget at the June meeting, and we want them to commit to justly funding Flint and Dearborn campuses.

- Looking ahead:
    - We look forward to seeing you at the coalition meeting this **Friday, June 12th at 1pm**!
    - Continue to look out for updates on future organizing and actions
