Glossary Instructions,

In the hope of keeping my Glossary available after I am no longer able to update it on my personal University of Michigan website, I have uploaded the files to Deep Blue here.

If you wish to use the Glossary, first check to see if it is still available on my website: https://websites.umich.edu/~alandear/glossary/.

If it is not, then I hope that the following instructions will serve the purpose;

1. Download the zipped file Deardorffs' Glossary of International Economics from Deep Blue.
2. Unzip the file. (On my Mac, just clicking on the file does that, putting the many files into a new folder.)
3. Run the Glossary by clicking on the file index.html.
